🌐 · hours 18

Let's talk about the side effects reported in close proximity to receiving corona vaccines. A bit long but important for you to read! Am; lk - Vaccines are effective and safe, the Ministry of Health systematically collects information on side effects and cross-references it with the information collected in other countries in the world and with .clinical trials conducted on vaccines

Lots of misinformation ✗ And a forger wanders around the net, flooding the discourse and causing unnecessary fear of vaccines, which are a key and important tool in the fight against the virus and in maintaining .the health and routine of us all in the shadow of a global epidemic

The Ministry of Health systematically monitors, monitors and collects information on the side effects reported after vaccinations, and the results of this follow-up are unequivocally in line with the determination of the world's .leading scientific and medical bodies: Vaccines given in Israel are safe and effective

We have uploaded the full findings as a presentation to the site, and we invite you to enter, be impressed and see for yourself the gap between a discourse that is not based on data and reality. Click here:

<https://www.gov.il/he/Departments/publications/reports/seav-25092021>

:In short, the data show

The third vaccine dose is accompanied by a smaller rate of reported symptoms (e.g. fatigue, weakness, local ✓ pain at the injection site) compared to previous doses. The number of significant effects observed in the third vaccine amounted to only 19 (in some of them the connection to the vaccine was still being tested), out of about .3.2 million vaccinated in the third vaccine

Myocarditis in adolescents (myocarditis) - As of 25.09.21, 11 cases were reported between the ages of 12-15, ✓ out of 331,538 (zero rate) vaccinated in the first dose and 255,444 (zero rate - 0.00043%) vaccinated in the second dose. This indicates that it is a * very * rare phenomenon, and it also usually passes after a short time. It is important to note that the risk of myocarditis as a result of corona is much higher compared to the risk as a .result of the vaccine

Under-reporting - Despite the systematic collection of reports, the ministry assumes that there is an under- ✓ reporting of particularly mild symptoms, which do not disrupt the routine of life and do not require medical follow- .up

In conclusion, we invite you to enter the presentation that came up on the site and see for yourself: the vaccines are safe and do not cause significant side effects (and if they were - they would not have been used in Israel or .(in the world

We know it's not always easy, but it's important to ignore the background noise and misinformation that goes around the net - to see how the corona wards are full almost only unvaccinated, listen to the experts and get

❤️🙏 vaccinated! For the routine and health of us all

✕ Corona vaccines undergo many tests of safety and efficacy and are then closely monitored. Source: World Health Organization [Vaccine information](#)

I personally know at least five people who were harmed by your injections

If I do the doubling for the residents of the country it reaches hundreds of thousands so it is not surprising that for your third injection half the people do not come

Walla, and the myocarditis I received directly in the week of the 3rd and 30th vaccination blood tests that tried to link it to a supposed kidney / heart / sex disease and found nothing .will not be recorded I may be 24 years old, but on the day I was released from intensive care after a week in the hospital, a 40-year-old woman came for the exact same reason. I wonder where this measure is hidden

Because how do you expect someone to believe you if there are side effects you have ?decided are not related to the vaccine when they are
For example: Full of women report hormonal symptoms and vaginal bleeding after the .vaccine

After half a year of a second dose, I had swollen lymph nodes in my armpit and over the
 clavicle, to this day it has not passed (half a year!) I received a referral from the HMO to an
 infectious disease specialist and the hospital asked me to write the reason for the referral. I
 do not oppose vaccines, everyone around me who can get vaccinated, get vaccinated, but
 the "push" to get vaccinated at any cost, without really checking any interest in his body,
 without real monitoring of side effects (by the way I was told all along that it is a vaccine side
 effect), It is jarring to me and it is also what nourishes those who oppose vaccines. By the
 way I responded to both vaccines, in the first vaccine I had circumcisions in the face and
 excruciating pain on the vaccine side, face and teeth, after a neurologist examination I was
 asked to postpone receiving the second vaccine after the symptoms passed, then after the
 second vaccine my lymph nodes swelled over the collarbone Half a year has passed, tests,
 biopsy, and continued follow-up, I have more ultrasounds and mammograms later this month.
 The doctors at the checkout told me that it was problematic for me to store as long as I was
 monitoring the glands because if side effects reappear then they did not know why to
 associate it. But the zoologist's answer was then to be vaccinated on the other side, in my

eyes very simplistic but petty. It should be noted that he answered me by email without talking to me, without seeing me, without thinking of other solutions, maybe this vaccine is not good for me, maybe you should try to get vaccinated from another company, nothing, the answer was it was rare that the lymph nodes swelled for so long, So I would suggest you get the vaccine on the other side

Vaccinated 3 times, (huge mistake) you have ,lost public trust since the end of 2019 we are in this plague, and since then something has felt very strange to me. Now after 3 vaccinations I know people who have been infected even after 3 vaccinations the whole thing is the green mark and coercion it is shocking and horrible. I will never give a hand to prevent a person from entering the place because of medical treatment that he has .decided not to take in his right to liberty and freedom of choice I certainly will not take the fourth vaccine, and even then my character will probably be canceled. Can take it from now on from everyone and open the country already those who survive will survive those who do not

I am a healthy 50 year old with no background diseases, two weeks after the vaccination I was diagnosed with blood clots that reached the toe. I was hospitalized for about a week with a vasodilator. Comprehensive tests have found no physiological findings that could cause this. The doctors fired me with the answer that there are no studies that indicate a connection to the vaccine. I reported to the Ministry of Health without any response from them. Now they want a third vaccine. Forget about that brat. Of course I've been loaded with bullets ever since. I was in the process of getting a mortgage but no one is willing to insure people with a history of hypercoagulability. In short, they knocked my life out. It is a pity that for so many of those who have experienced side effects, the answer is given that "no direct link to the vaccine has been found." For those who have experienced this in

daily life and experienced "life before the vaccine" versus "life after the vaccine", it does not help that medicine does not find the connection, it is clear that there is a connection. But indeed, if we do not count all those who received the answer "the connection was not found", we do see low numbers.

A 21-year-old brother of a brother-in-law's employee did not wake up after the vaccination.
.Cardiac Arrest

A friend's mother (who tried to persuade her to avoid the injection without success) felt unwell a few hours after the vaccination, was hospitalized and died after two weeks in the hospital

In my Facebook feed, there are ads * every day * but in the style of "passed away prematurely", young musicians and artists who have been vaccinated, adults, from anywhere in the country

And the saddest thing is that because good, smart and innocent people believe you that "the vaccine is effective and safe" I come out of the hallucination that connects "coincidences" into reality

.Your detached and false post + the comments prove that there is a very difficult reality

I imagine that the person who injected the experimental vaccine did so for all sorts of reasons and I respect the choices of the people wholeheartedly, but you

Because you know that this vaccine is dangerous, you see and hear about people who were ???? injured, how did you not stop this horror, after the first victim

How doctors and nurses who see what is happening, including insane amount of abortions, quiet births, how you are not in a demonstration on Saturday, organize as a group and say: I will not cooperate with something that destroys human life

.For all medical professionals who are aware of what is happening, please get up and act. It's a little late but you still have a chance to be on the right side of history, working for the well-being of human health and happiness

I know two people who fell ill in Corona and recovered at home. But more people affected by the vaccine: A young, healthy and athletic friend could not get out of bed two weeks after the third vaccine still suffers from fatigue and pain
Two older relatives died after the second vaccine. Brain tumor, blood clots
Another company after the first vaccine failed to function for three months , Pelvic displacement, no painkiller did not help. Streams of cold and heat in the limbs
.Another company vertigo after a second vaccination
A friend's father had a pacemaker implanted 3 weeks after the vaccination, and her mother, Patsialis, was partially paralyzed
In the last six months I have been exposed to thousands of testimonies of vaccine vulnerability on social media
.There is an epidemic of side effects

Our nicknames in jargon: conspirators, science deniers, corona deniers, vaccine opponents, tree-huggers and those who think the world is flat. Yes yes, total normative people, we did everything according to the book and flute of the firm, we were greatly ignored by the mild to fatal injuries from their experiments in us, we were not monitored and thrown to the winds and in the end we were also thrown derogatory nicknames and shaming to become irrelevant to the public and nothing. We are a huge family unfortunately, I did not believe how many of us there are until I kidnapped myself, we will not leave the victims, together we will defeat injustice and lies (Vaccine victims - it happened to us too (photocopied evidence

משרד הבריאות הוא זה שמוסר מידע כוזב. אני באופן אישי! מכירה שני מקרים של מיוקרדיטיס לאחר חיסון שני ושלישי בבת 32 בריאה ובבת 52 בריאה שלאחר טיפול בנוגדי מערכת חיסון קשים בבית החולים במהלך האשפוז ביניהם סטרואידים במינון גבוה פיתחה סכרת חריפה. מעבר לכך רופא שעובד באחד מבתי החולים המוכרים בארץ דיווח עוד בתחילת המבצע של החיסונים בשיחת פרטית על 6!!! מקרים של צעירים בני 16-18 שהגיעו עם מיוקרדיטיס/ פריקרדיטיס לאחר חיסון, מה עוד אני מכירה באופן אישי אתם שואלים? שלושה מקרים של תופעות נוירולוגיות ביניהן שיתוק בפנים, נימולים בפנים וכאבי ראש. מקרה אחד של קריש דם ברגל שהופיע לאחר חיסון. מקרה אחד של כאבים ממושטים בגוף במשך כמה חודשים רצופים באישה בריאה שהופיעו כחודש לאחר החיסון השני, 2 מקרים של הרפס זוסטר בסמוך למתן החיסון השני. שני מקרים של דימומים וגינליים ממש בסמוך לחיסון השני. מקרה נוסף של שבץ לאחר חיסון שלישי, 5 אנשים עם תופעות חולי קשות דמויות קורונה שנמשכו כשבוע בסמוך למנה השניה והשלישית. 2 מקרים של התנפחות בבלוטות לימפה בסמוך לחיסון מקרה אחד של כאבי שרירים ודלקות בבחור צעיר וחיסון לאחר החיסון השני. מקרה נוסף של עליות בלתי נשלטות בלחץ הדם לאחר מתן החיסון השני

זה מה שאני מכירה באופן אישי!!! חלקם בני משפחה, חלקם חברים, חלקם מטופלים שאני פוגשת מידי יום במסגרת העבודה שלי. שומעת את הדיווחים ממקור ראשון. מעבר לכך, אנשים רבים שאיני מכירה באופן אישי שמדווחים ברשתות החברתיות על פגיעות שונות ומשונות לאחר חיסוני הקורונה (לחלקם אגב מוחקים פוסטים כדי שלא תגידו שיש דיווח ושיש תופעות לוואי. אם מוחקים את הפוסט אז הוא לא קיים) תוסיפו את הסרט עם העדויות המצלמות את אלפי העדויות המתועדות ע"י ועדת החקירה האזרחית ומח"צ לקורונה, תוסיפו את הנתון המזעזע על עליה ב 25 אחוז בקריאות למדא של אנשים צעירים עם תסמינים לבביים. ועוד לא הזכרתי את העליה בשיעורי התמותה מדום לב. כל זה החל ממבצע החיסון בתרכיב של פייזר. אבל אין קשר לחיסון. כך לפחות הם טוענים. רבותיי אנשי מערכת הבריאות כל עוד לא הוכח אחרת זה רק מהחיסון!!! חובת ההוכחה עליכם להפריך קשר לחיסון ולא הפוך. מן הראוי שלא תנהגו ברשלנות רפואית כלפי הציבור בישראל. חיי אדם זה דבר מקודש. ואם יש חשש ולו זעיר ביותר יש לעצור את המסע המטורף הזה לחיסון כלל האוכלוסיה בישראל. בטח לא לחסן את הילדים. אוכלוסיה בסיכון שרוצה להתחסן שתתחסן מרצון ולא מכפייה והפחדה. רבים האנשים שמדווחים כי התחסנו כי נכפה עליהם בצורה זו או אחרת אחרת שגרת חיייהם היתה נפגעת, אילולא כך לא היו מתחסנים. אז תמשיכו לטעון שאין תופעות לוואי ושאין כפייה. אנחנו יודעים שיש. תנסו לשקר על משהו אחר לא עלינו.

The Ministry of Health is the one that submits false information. I personally! Selling two cases of myocarditis after a second and third vaccine in a healthy 32-year-old and a 52-year-old healthy woman after treatment with severe immunosuppressive drugs in the hospital during hospitalization including high-dose steroids has developed acute diabetes. Beyond that, a doctor who works at one of the well-known hospitals in the country reported at the beginning of the vaccination campaign in a private conversation about 6 !!! Cases of young people aged 16-18 who came with myocarditis / pericarditis after vaccination, what else do I personally know you ask? Three cases of neurological symptoms including facial paralysis, facial circumcisions and headaches. One case of a blood clot in the leg that appeared after vaccination. One case of diffuse pain in the body for several consecutive months in a healthy woman that appeared about a month after the second vaccine, 2 cases of herpes zoster near the administration of the second vaccine. Two cases of vaginal bleeding right next to the second vaccine. Another case of stroke after a third vaccination, 5 People with severe corona-like symptoms that lasted about a week near the second and third doses. 2 cases of swelling of the lymph nodes near the vaccine One case of muscle pain and inflammation in a young and sturdy young man after the second vaccination. Another case of uncontrolled increases in blood pressure after the second vaccine is given

This is what I know personally !!! Some are family members, some are friends, some are patients I meet every day as part of my job. Hear the reports firsthand. Beyond that, many people I do not know personally who report on social media about various and weird vulnerabilities after the corona vaccines (some by the way delete posts so you do not say there is a report and there are side effects. If you delete the post then it does not exist) Add the film with the testimonials The evidence, documented by the Civil Investigation Commission and the Corona Commander-in-Chief, adds the shocking 25 percent increase in young people with heart symptoms. And I have not yet mentioned the increase in heart rate mortality rates. It all starts with the vaccination campaign in Pfizer's vaccine

But there is no connection to the vaccine. At least so they claim. Gentlemen of the health care system, as long as it has not been proven otherwise, it is only from the vaccine !!! The

burden of proof must disprove the vaccine and not the other way around. You should not act medically negligently towards the public in Israel. Human life is a sacred thing. And if there is even the slightest concern, this crazy campaign to vaccinate the entire population of Israel must be stopped. Be sure not to vaccinate children. A population at risk who want to be vaccinated will be vaccinated voluntarily and not by coercion and intimidation. Many people who report that they have been vaccinated because they have been forced in one way or another their daily routine would have been impaired, otherwise they would not have been vaccinated. So go on to argue that there are no side effects and no coercion. We know there is. Try to lie about something else not about us

I personally have been to two funerals in the last few weeks of A. women who died from complications of side effects that started immediately after the third dose (and of course were not counted in any list of victims of the drug), and I know quite a few A. women who were healthy Began to suffer from them near the receipt of Pfizer's preparation, and some have begun to suffer in recent months from strange and abnormal health symptoms, and are only beginning to associate that the changes occurred after receiving the doses. (And of course almost none of them know that it is possible to report, or how to do it, or believe that there is someone who is interested in it in the Pfizer Office) A

Many of the side effects are not reported to you. We suffer quietly. The third vaccine was the worst. Fever, muscle aches, tremors, strong weakness, nausea, headaches, heart rhythm disturbances, rapid pulse, pain, swelling and redness at the injection site. And all this lasted for .five whole days. Not 24 hours and not 48 hours .All-inclusive vaccine

There are many who have not experienced anything compared to others who have suffered greatly. The third vaccine is worse than its predecessors for some of us. The FDA did not approve it because it is wrong to give three vaccines in such a short period of time. The fact that you mark the rate of myocarditis in adolescents as nil and as a light thing and passes while they will probably suffer from it for a long time and maybe for the rest of their lives ... (which means that their healthy and normative lives are destroyed) and ignore Significant) If you were to publish the mortality rate among young people and especially children and adolescents you would probably find a lower number than the risk you mentioned here. Professor Rezaf Levy explained that some cases end in intensive care for myocarditis. Professor Adler said that patients come to him who complain of heart problems and not everything is reported to the state because not everyone is hospitalized and reports. And I do not go into those at all those who unfortunately got rid of seizures and the like in the heart in the vicinity of the vaccine that they will not mention. Professor Rezaf Levy presented a study he conducted from 2019 in collaboration with Mada in which he showed that during the period of vaccination there is an increase in calls for seizures and cardiac arrest and when there was a period when immunization was moderate there was also a decrease in .readings

A week after the second vaccination I developed a pneumonia that lasted two and a half months, I arrived at the hospital for about 5 days. At the age of 30, I was discovered to have a healthy "dormant" area that woke up (injured at the age of a year and a half when I contracted pneumonia and was hospitalized). The hospital said that it is not possible to draw a direct link to the vaccine but chronologically over time it is not possible to argue ... The Ministry of Health of course does not recognize me as a vaccine exception and starting next week I have to bear the logistical and financial burden of testing to get to work. Freedom of employment has been violated, not to mention the right to bodily integrity! Disappointed with the establishment, the people responsible for our health, the government and the workplace !!!! who gave a hand to this regulation

And it is worth noting that I do not really oppose vaccines, get vaccinated every year with the flu vaccine and my children are vaccinated. This time what is happening in the country is a .failure .. and the people are silent

I am 44 years old, vaccinated twice, vaccinated every year against the flu and do not really resist vaccines... Everything you write here is really not true! Your data is far from correct, you can not only rely on those who come to hospitals, I after the second vaccination I started bleeding like menstruation, extreme fatigue and exhaustion, chest pain and palpitations just like a heart attack .. (which do not pass yet) and if an appointment could be made To the

cardiologist without waiting a few months for each appointment so you would see completely different reports! This is also one of the reasons why people collapse like this all of a sudden What's more, a large majority of those around me who did the third vaccine say that they had a .frightening lymph node growing under their armpits and a really high fever for a few days Maybe try to upgrade the health system here instead of just promoting vaccinations and then it will be possible to approach doctors at normal times without waiting for hallucinatory months and queues and maybe it is also desirable that everyone's family doctor will ask each one what his symptoms and report in the fund system and all data will pass to you as That they are really !in reality

Coercion by sanctions of a green mark will only take us further away from the vaccine, maybe instead you will try to check what are the reasons why people refuse to get vaccinated more ?? and more... Maybe there is truth in their fear

And it's true that there are those who were vaccinated and went through it with no side effects at all, but hey, whoever fell into the statistics with the same side effects is not interesting ... and !it is also impossible to know what the damage will be in the long run

The maximum is spot treatment for a new "medical problem" that has suddenly popped up out of .nowhere

I recommend that you post a link to the FDA discussion so that people can be exposed to what is said there about the vaccine. There is a big gap between what you, as the Ministry of Health and the media, reflected on what was actually said

If everything is fine and wonderful with the vaccine, why is most of what is said (by most experts in the FDA) censored and not reflected here in Israel - as stated, neither in the media nor by you. It seems that in the FDA discussion, experts "corona deniers or corona opponents", as you and the government call them, testified that sharp words were said about the vaccine, the side effects and the ethics.

And in general let people make informed decisions with informed consent. And not information halves, censorship and mouth-clogging.

You need to officially announce that Pfizer's experiment failed in Israel, it is not possible to reach herd immunity with 70% and also 80% vaccinated. You are now trying to reach 100% incitement against the unvaccinated to test maybe this is how the vaccine will work. On the way you destroyed the country, people are fired, barred, and health victims from the vaccine. you all have to resign immediately on the way to the prison that is waiting for you

I do not belong to the opponents of the vaccines, but the Ministry of Health is lying with a determined forehead, the Ministry of Health does not bother to receive a report on anyone who .has developed side effects after receiving the vaccine

For those who suffer from symptoms he has nowhere to turn and report, the family doctor is really not interested in "extra work", so he is not interested in his patient who developed side effects immediately after receiving the vaccine and most "funny", he is vaccinated (yes it is me) when he comes to receive The booster, the doctor who is there tells him, here you can not get vaccinated, contact your doctor who will refer you to get vaccinated in a medical facility, the family doctor does not bother to contact that person and explain to him if he can get the booster .and if so where

So the Ministry of Health stop lying and try to embellish the facts, I will certainly not belong to a .camp that believes in what you publish

All my life I have known one person who died young from a heart attack and within four months around five people under the age of 60 died for the same reason, so there is no connection to

the vaccine? Not to mention other side effects and no less harsh environment of shingles, Burmanley problems, blood clots, adenomyosis, stroke and many more .. Hi Ministry of Health, Question, why does your form for reporting a side effect from medication require the entry of personal details and allows an update to an existing report while the form for reporting a side effect from the vaccine is anonymous and it is not possible to make an update

From personal stories, to which I have been exposed, one side effect can worsen and become several within a certain time, so how exactly do you keep track of the cases Why does it look so amateurish

By the way, in my mother immediately after the second vaccination started pain in the shoulder of the vaccine, I told her to report a side effect but in her consultation with the professionals she was told that it is a coincidence and there is no connection to the vaccine. In the meantime, it has been 7 months with severe pain and the "inflammation" that has arisen does not go through ... any treatment

Did you at all instruct the professionals to collect data or did you prefer the "safe vaccine and the case stems from something else" approach

Another matter, why is there no constant transparency regarding the side effects to the public on a weekly basis as there is in England, Sweden, USA etc

The most serious side effect of your immunization and green badge operations is the loss of public trust. The whole. Even those who initially believed, even those who believed you to be protected have fallen ill and have not received any supportive care even though they are in risk groups. Even those who developed side effects and were repulsed because there are no known side effects.

A good and effective vaccine does not require 'soft coercion', does not require an aggressive marketing system based on increasing public anxiety

📖 This is my story 📖

!!! years old, completely healthy 45

A few days after the second vaccination, chest pains come and go, I did not attach .. importance, I thought it was stress / anxiety

😞 Three months later, I had a heart attack, which simulates a heart attack

I was hospitalized in the cardiology department in Sheba, test results showed signs of inflammation, four cardiologists told me with great caution: "There may / may / be a .connection to the vaccine, but no one mentioned it in the medical file One cardiologist claimed I had myocarditis and the other cardiologists claimed I had a heart !attack and also had a catheterization

My sister, a nursing nurse by profession) argued with the cardiologists in Sheba throughout the days of hospitalization about their rendering and dissociation from the context of the vaccine and still refused to write in the hospitalization summary that there may be a 😡!connection to the vaccine

Two days after my release I went to a private cardiologist, the above explained to me at length the possibility of the connection between the vaccine and the incident and wrote in :black on white

▶ "Suspected side effect of the vaccine" ▶

Brief explanation: the vaccine was actually a trigger, because the substance increased the) adrenaline in the heart that led to the attack) The

' :family doctor read my medical file and immediately asked Why did not mention that you came with inflammation? Blood tests show you had dimensions !?? of inflammation in the heart

The above applied to the Ministry of Health, while recommending her and the cardiologist to !??? be exempt from a third vaccine and receiving a green label, curious to hear the answer 😡!You guessed it! In my case there is no exemption

It's been a month since the incident and I'm still having chest pains, undergoing alternative ...treatments .Needless to say I miraculously survived 🙏 Cardiac events sometimes end in death

,I do not oppose vaccines and do not deny Corona, an honest man in his eyes will do but the vaccine is not suitable for everyone and it is not known before, a kind of Russian roulette

When you so blatantly ignore the hundreds of responses from people who testify about A.M. .you are doing a very great injustice, people have rightly lost faith in the public health system

No connection is something that can be proven only in front of a control group and only in retrospect. It cannot be said in real time, and when there is no control group. This is the state of this experiment, in a control group she has already been vaccinated herself. And now it can never be said there is no connection, there will be no way to refute or confirm

Is there really reported information? When doctors insist it is unrelated when a doctor tells a sufferer of a side effect he is imagining! This is a 55 year old person! Surely all of these report nothing. They understand the instruction to remain silent spiced with the threat of job loss. This holiday did not wake up 3 young people from the ultra-Orthodox sector around wave 40. They died of a sudden party and it is not related after 3 doses of vaccine. But Price will gossip that there's only one myocarditis I know of. And gossip that only 2 died of a heart attack. And only 1.5 suffer from partial paralysis. 1 tinnitus in the ears. 2.5 Being cutaneous 1.25 From neurological problems. 1/3 A woman suffers from severe bleeding or disappearance of menstruation. Really lonely nothing and nothing at the end of it all will explode in your face. Engineered explanations of Pfizer slaves have no effect. I know 15 who suffer from side effects some of which have several effects together. The lies do not help

True? Is that how you stand behind your decision to force vaccines? By saying that everything is fine? Why not give No. Women are instructed to take aspirin a few months after vaccination, to minimize the potential for blood clots? Why not schedule an ECG for young people up to the age of 40 to make sure no myocarditis is developing? How many more 40-year-olds will have a cardiac arrest before anyone takes responsibility for it? Why not tell a woman after she is injected "you may bleed from the womb for a week, two weeks, a month. It may be rivers of blood and you will suffer greatly", why not say no. Women "may your psoriasis return / atopic?" Why not say that if there is a background in the family of severe autoimmune diseases, then maybe at the moment need a moment to think about it? Be ashamed. When I store a child with a drop of milk, I get a vial from the nurse to confirm that this is what is being injected, I get the batch number, I get a vaccination plan from her beforehand and with details of what is in each medicine, Why do you not distribute a leaflet to a consumer? Where is all the transparent and true information about the injection components? And more importantly - be fair, just say: we inject you, if there is a weak spot in the body - that's probably where it's going, so strengthen your body before we inject you,

okay? It's better to bribe teens to get vaccinated with pizza trays and a movie entry! It is

In early January after the first vaccination, a neighbor of my mother, who was like a grandfather to me, passed away two weeks later. That day he still laughed with us at home, shaved and got a haircut and asked if he was handsome. At night he got up and went to get a glass of water and collapsed on the way back down the hallway from a heart attack. His 88-year-old wife called my mother, her neighbor, to come and help her and they both stood with Mada on the line trying to resuscitate him. One 88 year old One 72 year old over a man they love, 88 years old too. Collapsed in the hallway and died

.He had background illnesses but that is not the reason for this collapse

Took the body to be evacuated (from five in the morning he passed away) to 11 in the morning because the burial society was packed with evictions and that was after I activated protection. Mada arrived within half an hour and determined his death

.And of course - no connection

The silence and the attempt not to talk about things and flood them continues the underreporting you cause and here it explodes inside you. People will not be silent

If the vaccine was safe - you would take responsibility in case of injury as a result. But you do not know and therefore roll the responsibility to develop the users you forced it on

This is not a policy, this is a method of harming citizens (all over the world by the way) under the guise of a policy of kindness

A day will come and all of you, to the last of the officials who took part in it, will be brought to justice for this crime that is being perpetrated here under the auspices of the end of the world epidemic

Why do your data on the incidence of fruit / myocarditis not reconcile with the findings of the committee of Prof. Mevorach, a committee that you sexualized? His data is Pike ?! Your data Pike? And why when you talk in the post about side effects do you go through a topic of intimidation from Corona? "Madat" also works this way. When you do not know and do not get along - you are scared of corona. If the departments are full and there are no Acmo devices this is your default! For a year and a half you did not prepare the health care system for the horror predictions you sold to the public. You did not allow the use of life-saving drugs. You have harmed public health in almost every possible way - physically, mentally, financially, neglecting illness and early detection, splitting up and inciting the public to justify your failures ("the !unvaccinated are to blame for everything"). You'll be in jail

Ministry of Health Hi! For the sake of transparency, can you explain how you "monitor, monitor and collect" side effects reports

There are quite a few doctors I have heard who say that it is very inconvenient to report a side effect

I'm curious to know, in such an important post, why do you not give the link to the reporting site you created (!) About a side effect

<https://govforms.gov.il/mw/forms/CovidVaccinationSideEffectsReport@health.gov.il>

18   

?And do the data you posted here also rely on the reports from this site -

Monitoring, comparing data, will you also immediately say that you care about us? Because of you so many people suffer from recurring side effects, once I know more than three people around me, something is wrong! Once the most immunized state is also the most verified, something is mismanaged! There is no procedure, tests, the main thing to vaccinate unquestionably

Why do you vaccinate everyone so easily at any age when in other countries you are asked and recommended not to get vaccinated for things like thyroid or allergies? Say it seems sane to you? And to distribute antigen tests to children but not to teachers? Just a shame, you will be ashamed that you are forcing people to get vaccinated in the third dose ... you will be ashamed that you are working against us and not for our benefit, with a coat of smile and a happy character! Alek compares to what is happening in the world, so let's compare to Switzerland, Latvia, Sweden. Cheeky! I'm full of disgust

Do you doubt a global organization like the FDA? Who are you compared to ??? Take a look at the comments and you will see for yourself that there is a limit to how much you can eat the ... same shit

That's not how you do science. You have abused the power given to you by your hands. You got drunk on power. It is a pity, because there is nothing in public health that requires more than public trust and speech at eye level. You will see the difference between how the Scandinavians end the crisis compared to Australia. It's mostly damage to you. Life is complex, so are medical procedures, medications, vaccines, they all have pros and cons and there is nothing more important to simulate authority .in order for it to continue to be perceived as such, believe

Luckily I was not vaccinated I got sick and now I am naturally vaccinated and anyone who has pushed for vaccines blindly will pay the price in some way. This is what is called karma guys. You can delete comments on Facebook but not run away .from accountability with God Be very careful and start calculating a route again, too bad you will go into a deeper pit. Already now recommends everyone who works in the Ministry of Health to do a deep mental calculation. There is a way to fix the distorted and it starts with admitting that you are wrong and misleading. Success for all of us

You write that the Ministry of Health systematically collects and monitors the reports of side effects. Brings to your attention the inaccuracy that appears in your report

1. Family doctors say that the forms that need to be filled out in case of side effects are inflated and cumbersome. And that it is impossible for a doctor who is supposed to receive a large number of patients a day to also find the time and fill them
2. Many patients report that they arrived a few days after the vaccine with side effects and the answer they received was 'it is not related
3. Notice that something is wrong with your numbers. When I read a family doctor who tells about the one who recently met 3 boys with pericarditis in his clinic, it is not so consistent with the claim of only 11 boys across the country

In addition to your knowledge and attention, whoever deletes comments creates the impression that he has something to hide. If there is nothing you will respond to a matter-of-fact request, even if it is less convenient

I have been vaccinated with 2 vaccines since can not lift my hand with shoulder pain, injections and physiotherapy, in addition to fingers in my hands falling asleep, almost a feeling of paralysis sometimes. Afraid to get vaccinated 3 vaccine because of all this so I did a serological test and I have 3500 antibodies and still do not want to give me a green mark, if it is not a criminal state then what? You are preying on vaccines instead of being preying on the health of citizens. That everyone will do a serological examination and according to this you will make a medical decision whether to vaccinate or not !! That's the logic and this is how it should be done! Not in punishments, not in threats and certainly not in lies. You've lost it

At the time of injection there is no explanation about possible risks, no explanation about side effects and above all no explanation of what to do if there are side effects and who to contact All your doctors have been instructed to respond to any complaint submitted after the injection, !that there is no connection between the things, without doing any significant examination !There are hundreds of events that you just delete

The Israeli Ministry of Health is making me sick. Public health is the last thing that interests him. State and patient policy. 16 out of 18 in the FDA voted against the booster, and not in vain. Immediately after the first vaccination I was unconscious for eight days. Blood pressure almost 40. I went to the emergency room where I was immediately hospitalized in neurology. I was given a CT head that came out normal. And then they released. I kept mentioning in every meeting with a doctor that it all started the day after the vaccination. But one, but no one took this figure seriously. They immediately said they did not see a connection ... BH I came back to myself and even did the second vaccine that went through relatively easily thank God. When I wanted to report a link that the Ministry of Health gave to report side effects there was no 'appropriate' rubric for what I experienced because they left only room to report trifles like fever / redness in the injection area / weakness / etc. There was no rubric so requested for a minimum of seriousness as 'other' nor was it possible to mark something that appeared for more than three days so I could not write that it was over a week ... did not take details in the questionnaire to follow / verify /to check. Everything would have seemed disrespectful to us and to our intelligence and also to the seriousness with which this story is taken. Very afraid to take a third vaccine and also afraid not to. My problem I know. Just protesting the inaccuracy. The .lack of seriousness. The distrust you have brought upon yourself

12K Comments. For an hour I checked, everyone has a tangible story about being injured and knows authentic victims. Everyone with a real identity and people who are not suspected of being limited, self-interested, emissaries on behalf of someone. According to what is going on here, it is worthwhile for the people of the Ministry of Health to prepare an attorney.

Pass it on

The 3.10.21

! big strike, cancel the green mark

!Show the Knesset and the judges that they have betrayed the people

:Axis blockage

will be performed in the

.first 2 beats at 7:00 a.m. to 10:00 p.m

.The second from 15:00 to 18:00

The blockage will be carried out using several vehicles (depending on the number of axles) traveling in parallel on all the axes. As a gesture of goodwill to our green brethren, you can 😊 occasionally release the left axle, for green vehicles only after presenting an ID card

In order for the blockage to be effective, about 3 to 5 vehicles must be organized at each end, before exiting the road

.The ride will be according to the minimum speed limit on the road, pay attention to the blue signs

If a police car wants to clear the lane, obey its instructions, get off at the nearest exit off the road, continue driving slowly, and then return at the next interchange

You should exchange mobiles and download a ptt app for continuous communication and updates between the caravan members during the trip

It is recommended to affix to the vehicles signage condemning the green mark and forcing experiments on humans without informed consent

Distribution of the axes for blocking by cities

.Please be sure to focus on the axis assigned to you, in order for the blockage to be effective

Let's talk a little about dependency. Dependence on anything external, and over time, is just plain awful and horrible. Dependence on smoking, dependence on masking, dependence on injections while moving without unequivocal evidence but looking at such a short time span ... and all this for what? What exactly is it for? Half a year of silence here, half a year of silence there ..

Dependence ultimately destroys and destroys. You are driven by branding and utter panic. Once upon a time there were good deals .. you were vaccinated and 10 years of quiet. Today, because no other solutions have been found, rely only on it. Who the hell put all the eggs in one basket? At the moment it is indeed possible that the vaccine helps certain populations, but in a strategic look years ahead - and on the basis of the phenomena - if you continue like this and force people to ... live in complete dependence on such short medical time intervals - see what happens

Why instead of the experimental vaccine that we already understood that it does not prevent infection and every 4-6 months should be given another dose (in short, failure !!) Why do you not give drugs that have already been proven to help, given for over 45 years with proven efficacy and safety ?? There are several and such, why do doctors not give them ?? Because they are cheap? Because there is no economic gain here ?? Just a shame, forcing people to participate in a failed experiment instead of giving them existing, safe and effective treatment

I just want to ask why? Why are you lying endlessly !? And why do you think the public is stupid ?!

?Maybe instead of beautifying things you will show transparency for better or worse
.Your publications only make you look worse and worse from time to time
There are side effects and they are many, people try to report and encounter iron walls

I have been with muscle cramps all over my body, including vomiting, fainting, blurred vision,
high pulse, crippling exhaustion and difficulty walking for 4.5 months. Today there remains
fatigue and severe muscle weakness that impairs daily functioning. All the experts said he
would pass, it's from the shot and that much is still unknown about it. It was also said that the
corona is worse so it is better. At least you would show transparency and not hide information.
Extreme cases do occur. Perhaps statistically less than the dangers of the corona but why
.hide information
And in addition - even though I am not allowed to receive a shot 3 - my civil rights are denied
.from 3.10
If you were to take people seriously as a healthcare system is supposed to be, really collecting
data and revealing it - perhaps more people would be vaccinated, because anyone could do
.the balance of their personal benefit risk
What happens in practice is that you lose even the most conformist public trust. At best it is

From a conversation with some professionals who work in vaccine complexes it was clearly said, do not get vaccinated at the moment, wait, because all vaccines have not been valid since July. So just as you do not take paracetamol and antibiotics are not valid, neither are any other medicinal products that are not valid. Hussein's husband, a third vaccine got circumcised inside. Almost everyone I know after these vaccines has been so sick and exhausted that only when you hear a vaccine do you get chills. Corona outbreak in nursing homes immediately after vaccinations. You are ashamed. You are murderers. You murdered your people. Wake up now, enough! Leave us, you have abused us enough. It's not too late to stop. Simply enough

".My God, some people around me have been hurt by this "vaccine women gave birth prematurely. 1 was hit by trumpets and will not be able to give birth. 2 Another woman was vaccinated when she was 4 months old and her daughter was born with asthma and severe ailments. My sister-in-law has been vaccinated for half a year now with a cough that does not go away, she is unable to walk and suffocates, she was healthy until the vaccine. A 20-year-old girl, a neighbor, almost dead, cardiac arrest, revived very long and since June until today in rehabilitation, a friend's son, a 24-year-old nursing student, after a third vaccination - heart attack, miraculously survived. My 26-year-old neighbor, pharmacist after the first vaccination, swelling of the lymph nodes, edema and rash that has not passed to .this day since December

You forced a third dose without research, on everyone, in fact a mass experiment without public consent and outrageous coercion, after you initially had opposition to this coercion at all ages. You were thrown off all the stairs in America. Even now the data show that beyond risk groups, the importance of this dose is negligible. I read a report from * one * doctor about some significant side effects I encountered, so the total number 19 is unreliable, the minor mine I still suffer from I did not even mention, there is no point in your rendering sea. The information you post cannot be believed. Countries opened completely, after two vaccinations. In Denmark you are considered vaccinated for a period of 12 months, there is no obligation to wear masks. There is no green label in Scandinavia and England, it is a means of control and obedience only and .any removal of a campaign quoting politicians who admit it will not hide this fact

So it went up to 12000 but there was probably a lot more that comments were deleted whether it was by people who were warned from their friends or from any legal entity and another and maybe from you and if it was by the page administrators. **The Ministry of Health** and the administrators of the page provide an intelligent explanation for why deleted comments are deleted? Am I wrong and if so correct me more than happy ... and do you expect someone to come to your site to write side effects. This does not happen because most of the population does not enter the Ministry of Health website under any circumstances and there are those who enter your data several times a day ... on your behalf ... You may update the doctors that from now on and back for months they must report every response from minimum to maximum to you with copies to the patient and not say like a "no connection to the vaccine" record HMO doctors Private doctors / Hospitals / Alternative therapists and everyone involved .. You will see tens of thousands to hundreds of thousands of responses to the vaccine from mild to very heavy ... You will begin to issue truth even if it hurts so build trust. Is there a clause in the blackened agreement with Pfizer that you probably call a conspiracy that it is forbidden to officially report side effects ... Did any of your decision makers see know the open agreement or is it just Bibi followed by Bennett ... or did Bennett not even see it and it's just a deal Bibi Pfizer? No doctor is interested in our side effects and certainly not interested in reporting them .. So those who reported to you are probably really close to the Ministry of Health and have protection if they are treated From such an opaque office .. Add a few more good zeros for cases where there are side effects .. No one can ignore the fact that dozens of women suffer from menstrual problems, a cycle that was like a Swiss watch and suddenly became a broken watch or ones that would not get and suddenly get .. Dozens of women who have had an abortion this year and you could say that if there is an increase in the number of abortions compared to any other year then there is necessarily a direct connection to the vaccine ... not to mention chronic fatigue which really is why you take it as a side effect. Hope you monitor the comments here. There is a lot of data here that can help understand what the situation really is

Do not delete comments because there is no organization that is stronger than people and we are in an age that it could create an acute crisis and explode inside us. On the contrary, an opportunity to produce a dialogue and show that you care

.People want to be listened to, they are scared and frightened. And that's legitimate

There is nothing more authentic than people talking to people. No matter how many posts you put out on the subject - that a friend posts here a phenomenon of his sister, it is much more powerful

.than any content you upload. This is the power of social networking

:So here's what it's worth doing

.Flood the basics and give an answer to what needs to be done

.Comment on how you monitor things transparently and responsibly

.Go up live and talk to people

Make room for the less good things too, because most of all people want to express themselves

I currently see 13,000 responses to this post and none of the responses I have sampled and sampled a few dozen maybe over a hundred do not praise the Ministry of Health or the vaccine. I was also present to a few dozen friends who suffered from side effects while receiving the shot. Almost every employee who works with me took between one and three days of sick leave after the injection. And all reported one phenomenon or another. Most women I know report a recurrence disorder even half a year after the vaccine

What about contracting the disease itself after vaccination Is it a side effect? In my environment, 7 people have recently been infected, all of whom are vaccinated. I want to believe and I sincerely hope that the love of man will return to being a candle at your feet and you will understand that only the power of true love and love of people is the way

Public trust in a body like the Ministry of Health should be absolute because such a body should conduct clean hands impartially while understanding the responsibilities it has, however at the moment this ministry is rising to answer the policies of a leadership controlled by shadow and power governments that do not see the good of humanity and the individual. in particular

increase in readiness of cardiac arrest and heart attacks among 16-29 year olds 25%
Increase of over 83% in heart attack among women aged 29-20 in correlation with coronary vaccine

.These are the serious findings found by Professor Sequence Levy's study
The study analyzes MDA calls in the years 2021-2019 and focuses on calls related to cardiac .arrest and heart attacks according to the definitions set by MDA teams in the field

:This period includes
1. 14 months without a corona epidemic and without vaccines
2. (Ten months of an epidemic (two waves)
3. and five and a half months of an epidemic with vaccines

.The emerging findings are troubling to say the least

:Findings of the study
In January-May 2021, a 25% increase (relative to 2020-2019) is observed in readings of cardiac - .arrest and heart attacks among ages 29-16

.Smaller increases are observed at ages over 40

Analysis by segmentation of age and gender strata reveals an even higher increase among - .women, for example over 83% of heart attacks among women aged 29-20

.The increase in case rates increases as the ages get younger -

The findings supported the CBS statistics (CBS), which indicates that the first five months of 2021 - observed a significant increase in mortality especially at younger ages

Further statistical analysis raises significant correlation exists between the number of - vaccinations given during this period and the rise in the number of weekly readings Of cardiac arrest and heart attacks between the ages of 39 and 16. In particular, the correlation seems to be related to the administration of the second dose of the vaccine and the first (and only) doses of recovering patients

These data are extremely disturbing, especially in view of the proven link between the vaccine and the risk of myocarditis, and when extensive medical literature shows that myocarditis is a difficult-to-diagnose disease, often misdiagnosed as a heart attack, and even with a latent manifestation of major mortality. Heart in young people (20-12 percent of cases are associated with the occurrence .(of myocarditis

This raises a real concern to give a diagnosis of cardiac side effects .of the vaccine among young populations who are at low to very low risk of coronary heart disease

Therefore, an urgent examination at the individual level of cardiac arrest and heart attacks in January-May 2021 is required in order to clear or substantiate these concerns. For this purpose, the individual information of these people should be made accessible including, vaccination time, whether they have been infected with corona in the past, known background diseases and information from the .hospital if any regarding their treatment status

.Let's see. Until 2014, there was no reporting system in Israel .Later, when one was created, it was not possible to report vaccines, only drugs Now that you were warned about this in the High Court during this "epidemic", the option to report

.was added, but without personal details
 .Then the option was added for personal details but only 15 characters to describe the side effects
 In addition the system is closed and not transparent, not publicly known, and you call it "easy to
 ."report
 You have never contacted the reporters, all reports fall into a black hole that no one sees or hears (
 (.Except for the lies you tell about it
 You distort data by changing the definition of who is vaccinated according to how it serves the
 statistics you want to show. People who are "partially vaccinated" who are suddenly sick with
 corona, the corona is to blame, God forbid not VED from the vaccine, you are just a joke. People
 ,who die from the vaccine (will not register as dying from the vaccine of course
 In addition you hide side effects, threaten doctors, give instructions not to link side effects to the
 vaccine, your and your doctors' mantra is "unrelated to the vaccine". You will never do
 .physiological research so that you can always repeat this mantra
 You hid side effects from the CDC, you hid the heart infections until it came back like a boomerang
 from the CDC and the FDA, despite epidemiological analyzes by experts around the world who
 .showed the connection
 You are avoiding effective and safe drugs like ivermectin and HCQ that are widely used worldwide
 with great success because it does not serve your vaccine agenda. You prevent early treatment of
 patients and send them home until they develop a serious illness that they get to hospitals and
 .receive inadequate (not to say fatal) treatments
 .You are a bunch of dishonest, manipulative, liars and fascists
 Our people are waking up slowly, the world is waking up fast, it will come to us too, do not worry

 because I do believe in science, although I am aware that there are those who benefit, and benefit very much from vaccines and yet throughout our history vaccines have certainly prevented various .diseases
 But the green mark and its restrictions create something really bad in our society whose price is .higher than the so-called health gain
 .This is a very sick evil
 It is about the same weight that whoever chooses not to circumcise his children will not be able to put them in certain places because he may catch diseases because of the foreskin
 or whoever chooses to eat meat will not be able to enter events because eating meat actually .supports the meat industry and it causes disease and cancer Thus it is actually causing diseases
 Etc etc ... more angular examples

Ministry of Health You do not deserve to be called that! You who are supposed to be in charge of public health, you sold us for an experiment whose real results will only be revealed in x years !!
 Only from the responses here can it be understood that there are far more than 19 harsh responses. All your information and reports are false and based on manipulation and intimidation, you have caused a rift between citizens and families, you have torn citizens from their sources of livelihood, you have completely lost the North and become a North Korean style dictatorship and this is the most serious side effect today! I am not opposed to the vaccine and even vaccinated twice. But it is important for me to say that the main problem in dealing with the virus is the lack of information and transparency. For if there were, then there were higher vaccination rates and fewer distortions or vaccine opponents. One should not be forced to get vaccinated as the very necessity creates resistance and raises questions of how ethical it is to do so in this way. Must draw conclusions from what has happened to date and share with the public more. !Uncertainty frightens us - it's human nature 🙏❤️ Wishing plenty of health to all of us

I lay at home after the second vaccination with a fever of 39.9 and convulsions. I did not report because it is clear to me that they will tell me that it is a common side effect. I know many others who suffered like me and more than me, like cardiac arrest to a soldier, but of course there is no connection, a 50+ white stroke but of course no connection, a company that suffered from glandular swelling for 3 weeks, another who bled for two weeks and did not report, because do not .trust the system then The data in this post does not reflect anything

I after the second vaccination in suspicious proximity while in month 8 I caught 5 vertigo attacks in one day I am alone at home with eye flicker and lack of control over the body, the family doctor said it could definitely be a phenomenon from the vaccine. If this had happened to me on the stairs (I live on the 2nd floor without an elevator) what could have happened to me? I have never suffered from vertigo or neurological symptoms, in addition to decreased .vision I attributed it to hormones from pregnancy but it went on
My sister a day after the first vaccination was evacuated to the emergency room with severe breathing difficulties and was diagnosed with bilateral pneumonia and was ill for over 3 weeks .(also pregnant) the doctors agreed that there could be a connection
I will not be vaccinated with vaccine 3 because I am scared, this vaccine is an experiment .. whose results are still unknown in particular of the booster. The truth is, without going into what you have prepared here, as early as December I have seen .that the collection of adjectives of side effects is not serious

To really get reliable data, you had to ask each and every one to report to the term we say a month or six weeks (I do not know what the norm is) about * any * change in health status. Actively collect .the data. Without giving it meaning whether it is related to the vaccine or not

And only after collecting the data analyze them and understand in terms of numbers what could be related (from the more "serious" things - that I no longer have to know what it should be on the list).

And with curiosity to find out how to treat the injured. (Because of course there is no vaccine that .(will not harm anyone

What I have seen is that doctors have determined whether or not something is related to the vaccine on their own. Perhaps with clinical thinking, but not based on data. Because there were no .data. Because no data were collected

And I do not understand how it is considered "normal" to give an experimental vaccine (from December to April) without collecting data on the fate of anyone who has been vaccinated in terms .(of their general health (not just the mother who fell ill and died of coronary heart disease

Ministry of Health. You make reporting difficult, and do not collect information from all channels. As someone who deals with numbers it is clear to me how easy it is to present any misrepresentation you want ... days after the vaccination could not be reported at all. Do you also collect deprived? Are there reports or are doctors scared ??? If doctors are scared and it is difficult to report ... because it is a procedure and it is not always absorbed ... how easy it is to present that "there are "not many reports

I think the solution at the moment is just not to get vaccinated. And do tests. The more there are, the more it will fade. You have to lower your head until the rage passes and fight in front of courts, demonstrations. And not going to places that require, know that it is people's livelihood, and it is insanely difficult and not everyone can work from home. But does that justify the danger of insane .health damage? That everyone will answer what is right for him

are you serious? I and a lot of people around me have had serious side effects. I do not need you to reassure me that everything is fine. I saw live what your vaccines have done - for me and my brother - severe rashes and a skin problem that has not passed for about six months, for a relative who has irregular heartbeats for two weeks. Once an ambulance took her to the hospital. And it all started not a week, not a month. The next day (!!!!!) the vaccine. Coincidence? Definitely not!!! You play in the lives of people who are sick I'm not a person who talk like that, but you have crossed every line There are serious and very common side effect to the vaccine I hear it from people around me non-stop. I was vaccinated twice. But after seeing what it did to me and the !! people close to me, a third vaccine died on my body

I proposed to the government confidence-building moves that will enable those who fear / avoid / Cancels the existence of the corona to change his mind. For example, take experts from the opposing side and give them training from A to T about the existence of the virus, what is its genetic sequence and of different strains with names such as Mio Delta Epsilon, randomly sample a large number of vaccines and demonstrate the substances from which it is made. Show the experts how to test this in the lab, what the comparison thresholds are and how they .are determined. With maximum real-time transparency of these parameters .But no

One immediately after the first injection received severe symptoms, visited the family doctor and other doctors who denied the connection between the "phenomenon" and receiving the injection and after much suffering was persuaded to receive the 2nd injection for fear of infection and thus suffered from the same phenomenon much harder until she arrived at the emergency room. Even there, the doctors continued to deny them and did not respond to her suffering. Until she finally found an amphibious doctor who admitted that he was familiar with the "phenomenon" and gave her appropriate treatment noting that the treatment she had received before had worsened her condition. My second relative also suffered from severe symptoms after the 1st injection, her condition was so serious that when she was ordered for the 2nd injection she described the situation and was sent home by a health insurance doctor. The doctor announced that she should not be given the 2nd injection on that visit. After she recovered, she was convinced that everything was fine and even excellent, since she had developed antibodies (this is how the symptoms were explained to her) and she received the second shot.  5  If you were running like a reputable health ministry, you would from day one set up a system that monitors side effects, with accurate reports of people being injured, and experiencing mild to severe side effects, family members of those who died unexpectedly without any background illness, cardiac arrest numbness In some organs, autoimmune diseases that suddenly come to life, severe skin allergies, breathing problems, eye problems and more and more but you are nothing more than an office of cowards, pushing an experimental preparation to continue to reward the capitalists and this is not a conspiracy, And there is corona ... but it's interesting that in countries that are less "vaccinated" than us there is no such disease, or mortality every time you

Early signs - 20-fold increase in cancer in vaccinated

Dr Ryan tells of findings he already sees in the lab that are early signs, he says he sees a .massive increase in autoimmune diseases and various cancers in vaccinated patients

Since January 1 in the lab, I have seen 20 in endometrial cancer in relation to what I see on an annual basis. "He said," I do not exaggerate at all because I look at my numbers year after year. .God, I've never seen so much endometrial cancer before

He explained that vaccines seem to cause serious autoimmune problems, in a way he defined as a "reverse HIV "response. Two types of cells are required for the immune system to function .properly: , Also known as "CD4 cells" and "T-kill cells", also known as "CD8 cells

.And what do CD8 cells do? They keep all the other viruses under control." Added"

He sees an increase in viruses from the herpes family, herpes, shingles, kiss disease and a huge increase in the human papillomavirus. It also reports invasive melanoma in younger .patients

"We're really weakening these people's immune systems"

דבר ראשון, הייתי מצפה ממשרד הבריאות להיות מסוגלים לעשות תרגיל פשוט במתמטיקה בחישוב אחוז הילדים שסבלו ממיקורדיטיס על בסיס הנתונים שנתתם. לא הצלחתם. נסו לחשב שוב ולתקן את הפוסט.

בנוסף, כיוון שגם ה-FDA מבחין ומדווח על פריקרדיטיס בנוסף למיוקרדיטיס - מעניין מה המספרים האמיתיים הכוללים את שתי הפגיעות הלבביות הללו?

אבל נניח שנוותר לכם על תעודת בגרות במתמטיקה, ונניח שנוותר על הניסוח המטעה של 19 תופעות לוואי מתוך 3.2 מיליון כאשר כנראה הכוונה שלכם היא שנרשמו "רק" 19 *סוגים* של תופעות לוואי ולא 19 מקרים של תופעות לוואי.

If you really cared about public health and the people in Corona, you would publish a protocol of substances and vitamins that can help get through the disease more easily and not get into a difficult situation, advise people to strengthen their immune system and not just tell them where in isolation... not to mention drugs that can help And you stopped marketing them. The only protocol that has come out of you is for doctors, that if patients come to them with side effects after a .vaccine, they will say first of all - "it has nothing to do with the vaccine

The Minister of Health and his predecessor, instead of taking the money you receive for the hospitals, for more beds, more hospitals, more allocations to doctors, brothers and nurses ... what do you do

Shorten the hours for the interns (so thank you that thanks to you, the complexes will not be enough), sell Acmo machines that were here a year and a half ago but you decided not to need them, let alone talk about needing a heart surgeon for an Acmo machine - and there is no heart surgeon in every hospital. On the pressure in the machines. Taking all the public money for tests and injections that who even wants them? Take this money and start investing in real health Stop blaming half a country that has decided not to listen to people who have nothing to do with medicine. And especially when you say endlessly in the news - the green mark is only meant to cause vaccines. There is no interest in health

You write - "keep the character" What about keeping healthy? You prove every time how much you !! pike yourself

.Come on, let's talk about side effects A good friend was vaccinated with two doses of vaccine, like most of the public - against his will .- because he had to keep working

.Two days after the second vaccination he begins to feel unwell. Dizziness, fever and weakness
 After about a week it starts to feel better, but there remains some feeling of distress in the heart
 .area
 After a few days, the feeling of distress becomes bothersome stings in the area, which later
 .reach a level of painful and disturbing stings
 months he hangs out with doctors, CT scans, while the pain lasts and he really starts to fear 5-6
 .for his life

Since then the pain has subsided, but has not stopped completely. He still experiences them
 .several times a month. It can arrive just in the evening and stay for a few hours
 .It is important to note that those doctors did not find anything wrong with the tests

Now, just a week ago, he tells me he went to the doctor to see if he could even take a third dose
 after the side effects he had. She for her part - closed her eyes, raised eyebrows and raised her
 .face (reward!) In a section of I have nothing to tell you
 So he told her well, can you send me for tests to confirm that I can actually get the vaccine? She
 says that there is nothing to do tests because in the previous tests they did not find anything,
 .and there is nothing to rely on
 .And so he left the doctor's room - more confused than he was when he entered

That friend is probably going to do the third vaccine since he has no choice, in order to stay at *
 .his job he must have a green card

First of all we will agree that we, the public, are your background noises. Hundreds if not thousands of people who do not resist and have given a shoulder and work and life to your system of trials and manipulations that you carry out using the loyal courtyards. And yet, we do not object, because that is the life of the grandmother and the neighbor and the Gabay and the teacher. Your demonstrable disregard for the findings that every second person has heard about from a person or two - with you this is a rare case, etc. And yet we get vaccinated and believe that the difficulties are easier than the 'real thing'. So I did not get inflammation but suffered from pain that signaled me to pay attention. For half a year now I have been feeling it coming and going. The FDA has said no to getting a third vaccine - your prime minister thinks otherwise. Thousands of women have suffered from bleeding and you do not address it and the doctors who are in a hurry to recommend, and rightly so, do not perform any follow-up or registration so that Pfizer knows how .the rabbits felt. Keep trying - maybe someday your trust will return

No. I have no faith in the health nuisance that for years than tobacco products with pesticides and carcinogens that directly harm human health, and were designed to produce addiction, knowingly !!! No, I do not trust the office that has been putting fluoride and heavy metals into my drinking water for over 50 years, which have been shown to impair brain function and affect human mental .health

I have no confidence in the office that approves toxic fluoride inside my toothpaste. Why put a toxic ?and dangerous heavy metal that has no purpose in the product I put in my mouth

I have no confidence in the office that approves a genetically modified food that has mutated from

the natural way God created our food into a harmful and carcinogenic toxin that shortens our lives
and impairs our fertility

I do not trust the office that approves vaccines that clearly and openly contain hard toxins, that it is
crazy to just think how we are used to thinking that it is normal to inject 50 toxic vaccines into a soft
?baby

With all the brainwashing they have done to us, as if from the first man to this day we could not
!? have survived without them

No I have no confidence in the office that approves of toxic and carcinogenic white sugar that is
worth in its addiction and damage to the human body as heroin and cocaine and in some ways
even more addictive and dangerous than them. (See an experimental value they did with mice,
(which gave them white sugar and soon developed cancerous growths all over the body

No, I do not trust the ministry that 5 dairy products a day must be consumed when in practice most
.of the population is lactose sensitive whether they know it or not
.In fact, dairy products are known to cause calcium to escape from the body

No, I have no faith in a system that hides the fact that cannabis has been registered as a medical
patent for 83 years, a plant with abilities known to cure over 100 different diseases, a plant that
helps and cures so many people in the world. A plant that saves young children, epileptics, or
those with muscular dystrophy and other serious diseases, post-traumatic stress disorder and
... people suffering from chronic pain and more and more

but definitely forces us to consume a very large number of different types of toxic and addictive
chemical drugs, which destroy our whole body As a condition of receiving the plant, it is simply
insane. Absolutely insane to trust such an office. An office that defames a medicinal plant and calls
it a dangerous drug but takes a dangerous chemical drug and calls it a medicine

An office that spends a lot of money on marketing and public relations An office that wants us to
suffer so much and spend so much money on poison in a doctor's prescription that only imposes
.symptoms and is called a cure

I have no confidence in the office that approves bleeding tampons and sensible bandages for
women. Substances that also caused amputation in women who were more sensitive to these
.substances

I do not trust a system that approves the use of formalin which is a substance for preserving
corpses in chicken eggs, something that was not done before because it was not needed but
?because of the dense form of chicken life "no choice" because everything is full of bacteria

When formalin is known as a substance for preserving dead bodies, it is a carcinogenic and
.dangerous substance at high levels to the human body

I do not trust a system that claims to maintain my health but in practice in all its actions and actions
.performs every day and day since I was born only clear actions against my health
.And I'm sitting here grabbing my head

?How did we sleep all our lives and take it all for granted

Feels to me like a woman who lived with an abusive man but was not at all aware that she was
being abused and controlled and even attempted murder. Over the years

How can you go back and trust a loved one who claimed to care for your well-being but betrayed
?you all along

?Isn't that nonsense in her name

?How did we get used to it being a normative thing

Why did we get used to the fact that every drug has side effects like other diseases something
?normative? Is this really medicine

.Not according to what I learned from Rabbi Asherov, or our great doctor - Rambam

Medicine according to my Torah comes from the food I eat, as it is written in the food blessing, that
what we ate will be for medicine, but doctors do not even study nutrition as part of their degree.

? ? ?Have you ever asked why

How is this possible? All that moves and moves the human body, is the food that is broken down in
the body and becomes fuel that helps the proper functioning of all body systems. How is it possible
???? that doctors do not study nutrition at all

Or the very fact that we are hidden from the fact that our wonderful natural immune system (which
has been paralyzed with vaccines since we were babies) does not really need everything they
.claim it needs

.No

I have no faith in a system that collects money and taxes from us all our lives but abandons the
disabled and sick old men and gives them a pension that leaves them two choices or to eat little or
freeze in the cold in winter to death. Not to mention an annuity that does not cover the lowest rent
on the market at all

.No. I have no confidence

'.Because I'm tired of being the 'battered woman

.So do not ask me to obey this battered husband, who is clearly trying to harm me all my life

I want to get out of the hands of this regime that
 .forces me to do irrational things to my body
 Which makes me sick and crippled and my brother also does not give me a decent living
 .allowance
 So I will continue to put one big stripe on a system that wants to kill me. And on their false
 .instructions

And I put an even bigger streak on people who want because of this to call me a hallucinator who
 endangers public health, just because I dare to raise questions and criticize an establishment that
 .clearly my good, health and well-being, is not at the forefront of his mind
 .To say the least
 .But yes I have a medal to give you
 .With stripe
 .Have a positive and healthy day for everyone
 And merit the coming of Moshiach and time Gaoltino immediately right

Tell me are you delusional? Who is responsible for this post? It's not clear if he's stupid or if he has
.a plan here

You write: Under-reporting - Despite the systematic collection of reports, the ministry assumes that
there is an under-reporting of particularly mild symptoms, which do not disrupt the routine of life
???????????????????? .and do not require medical follow-up

Under-reporting is also due to other reasons such as the person not linking what happens to the
vaccine (look how many there are in groups that tell about family members), under-reporting is
also due to a situation where the person is currently engaged in mourning (abortions), under-
reporting is also due to a person simply dying . How many people were operated on to check what
caused their death ??? There are already surgeries in the world. Under-reporting is also a result of
doctors not agreeing to an "unrelated" relationship telling them and it does not go into the report.
Under-reporting is also due to your disagreement to link phenomena or at least to investigate them
transparently (the sequence of Levy's study on an increase in MDA readings due to heart attacks
???????????????? he did not claim it was because of the "vaccine" but Yes, mention the correlation,
,ignore it in the Ministry of Health

:how dare you write it

Myocarditis in adolescents (myocarditis) - As of 25.09.21, 11 cases were reported between the
ages of 12-15, out of 331,538 (zero rate) vaccinated in the first dose and 255,444 (zero rate -
0.00043%) vaccinated in the second dose. This indicates that this is a * very * rare phenomenon,
and it also usually passes after a short time. It is important to note that the risk of myocarditis due
to corona is much higher compared to the risk due to the vaccine. ??????????????????????
??

Where is the link to studies that show this? Do you think you can just write anything because you
???? are the "health" office

Passing after a short time" ????????? Show me there is no long term damage! You can not"
.because there is no long term yet
!From Corona the risk is greater? Show me

!Such brats

Gather for discussions in groups of vaccine victims, a lot of people there are in favor of vaccines
and are looking for a reason to take a third after what happens to them because of your

Herpes zoster in the throat after a second vaccine, which is basically shingles. A private AG doctor said it was impossible to know if there was a connection to the vaccine, but although it is an unusual and very uncommon event, an increase is seen in young people who receive it. Infernal pain and treatment with very strong painkillers and steroids
A third vaccine is currently being avoided due to misrepresentation and lack of transparency of the system

?Maybe @ Ministry of Health, it's time for you to make a change Open your doors to those who want to report and do not treat those who "complain" as those who interfere. This will make you smarter about the vaccines, allow you to properly research and accompany the victims and restore trust to you. And also look more professional and give the public more transparency. It sounds like there are more complainants among your people than your reports. Apparently since there are more problematic populations for the vaccine and should not be pushed blindly

I was vaccinated on Tuesday and to this day no one has asked me if I have or have not had any side effects... I wonder what is happening here. By the way, in my opinion, the wording of "19 side effects" is not accidental. Probably referring to 19 different types of side effects, not the number of cases reported. Otherwise really ridiculous to post this thing. 19 reports? What do you think we're ?dumb? That the vaccine has hurt our intelligence so much

You also do not mention the swelling of the glands in the armpit, which subsequently recommended in the US to avoid mammography within two months of the injection. And these are just symptoms that I personally know. But I do not know anyone who complained of side effects. Patients perform follow-up, periodic check-ups, we were not asked if there was a change after a period, no CW was suggested. And for the avoidance of doubt I am vaccinated with 3 doses and my whole environment is vaccinated. When you reinvent the rules of evaluating the connection to a medical preparation, you get the .numbers so low that you presented them

The relationship of a side effect to the preparation is not measured from the point in time when the person who received the preparation is considered "vaccinated", which by your definition is from the seventh day after the vaccination, but from the point in time when the preparation * enters * the per on' body

Such a connection range from certain, possible, reasonable and unrelated

Everything that people experience after the vaccine is given between the date of its injection and ?the seventh day according to your definition, what connection is given to it? Not connected

In my professional occupation, as a monitor of side effects in a large company, an unrelated side effect will * never * be assessed until at least one month has passed since the product was .introduced into the body

If you are serious about collecting side effects, you should now recruit more and more full-time people to gather the information that has accumulated and will accumulate in this thread. When all the information is collected, post a revised thread with the correct numbers. This is the minimum .that citizens deserve

The whole media has become a "Pravda" image and the Ministry of Health is a branch subordinate to thugs who spread lies. ובהנחה שזה מדגם מייצג של האוכלוסייה (כי הפוסט לא הגיע רק לסוג אנשים מסויים) - המסקנה היא שרוב גדול של הציבור כבר לא מאמין לכם!
אין לכם לגיטימציה ציבורית לפעול!!

.My husband did a third vaccination two weeks ago Immediately after the vaccine he was very ill, two days later he had heart palpitations and after a week he has wounds all over his body with pus that eats away at his skin and fever ... Of course .the doctor said it was not from the vaccine and gave antibiotics to the wounds The funniest thing was sending him to do a corona test ... just a joke

AN Noodle  An amazing Russian rock song from '79, which describes what collective loneliness is, is very irrelevant today! The translation is flawed

'I got used to wandering alone / warrior of the universe'

I got used to wandering alone and looking in the window of others
 Lots of silent pictures reflected through the wet glass
 I would like to know what awaits you and what hurts your dreams and here
 we will again find the night .and day wasted

We are tired of casualties
 and the opportunity is too scarce
 wandered and now
 we live in capsules

tears of happiness of others not dredge the tears
and left only wait
and how much it hurts to call someone who will come

hard to wait
while not believing in myself ,
harder to bear so maybe we can get (to save the situation) and maybe we can get Listen
,turn on the light
open the doors

able the heartbeat
and I left the house
and saw
that I was alone
and only the snow on the roofs

I escaped from this freezing captivity ,
and still too little heat reaches the earth

but I did not give up
I am a universe soldier
in the world
!of good and evil
I am a particle of lightning burning
in a world full of
evil and silence

... and on earth, as always comes winter, then spring and winter and spring

Why does the Ministry of Health not delete responses from schizophrenics and conspirators? It is clear that there are morbid reactions from those who refuse vaccines, those who refuse a green label who think that they are thinning the population with the help of vaccines. delusion. Read people's comments here and laugh or cry over them. Go get vaccinated. This is the only way not to deplete a population from an epidemic. I'm in the groups of these lunatics who call on all those who refuse to write here endlessly. Personal sale some crazy people writing here. At the beginning of the epidemic they talked about fear of implanting antenna chips. They are simply criminals against humanity. Conscious engineers with pike and lies falsify data why not .delete their responses. This is a cohesive group already

Know why tens of thousands of teachers, especially teachers do not want to be vaccinated for the third time, not because of resistance to vaccines, because they remember the suffering after the second vaccine, do not want to go through this nightmare again Some until now feel the effects of the first two vaccines on their body, whether it is in changes in menstruation, or unexplained pain in all sorts of places in the body, and it is only on the tip of the fork .People who were perfectly healthy, their lives changed for the worse after the vaccinations for what ? A virus that 99.5% of people recover from As someone who has been in Corona and has not been 5 for a long time, can tell you that a healthy person is a mild illness, that from what I understand people after a third vaccination suffered more than I did in the three days I was sick in Corona Health for everyone, and do not forget there are much more serious and bad diseases than the ... corona, these will be our problems

:Let me tell you about my side effects

On 4/03 I did the first vaccine (and last for me) and found myself hospitalized. Seconds after the vaccine I started to feel bad and mostly weird. From the nose area to the chest I felt like the area was as dull as in dental care. There were strange flows in the body. As if some liquid and cold substance travels all over the body. Every few minutes a feeling of suffocation that intensified and weakened in the waves. Upon release I received an explicit recommendation not to receive the second vaccine. You went to my family doctor at Maccabi and I told the whole story. Said he would check but in the end sent me a health certificate online that says I can get vaccinated for the second dose as well but take some substance before and after. It should be noted that the above doctor did not see me physically at all. He only spoke to me on the phone a week after the incident and sent the document online. Of course I do not intend to get vaccinated in the second / third .dose, etc. after what I went through

Already in the vaccination compound, an ambulance was ordered for me. All metrics went wrong. Blood pressure rose to the sky and so did the pulse. The situation has dropped. I was given oxygen, two doses of aspirin, another medicine that the doctor took out of her private bag and also an adrenaline dose, which made my heart rate jump even more. In short, I was evacuated by ambulance to the emergency room, where I was hospitalized for the night, under infusions and steroids. At the entrance to the emergency room, I heard the paramedic say to someone: "This is .. "my fourth like this today

While in the emergency room, I heard someone across the curtain having an epileptic seizure after the first vaccination. Later in the ward I heard from the medical staff that there are full hospitalized

with such and such side effects. I usually believed in the health department but after what .. happened to me personally and I heard so much, I no longer believe

You must ask yourself: Why did they not turn off the responses? What are dumb people? If
everything we see leads to one goal - which they have been working on for decades - then it is
clear that one demonstration will not break their business, they have practiced and examined every
possible situation. So what's the point? One can resent and upload photos and then
demonstrations and in the hustle and bustle there is an excuse to close. It pretty much worked in
New Zealand you would be surprised. A brewer we will demonstrate, and it is clear that the energy
of the good will increase as a result and it is clear that Eichmann will not swim alone in the sea. But
be prepared. In our camp everyone for one and one for all is real. And this is the beginning of the
change from the satanic atmosphere that has become here. What I most do not understand is how
policemen we served with in the army smile at them in the building elevator, we helped his father
and mother who fell on the street get up "one morning" and behave and run over passers-by with
their hor e Year of brainwa hing? The choice of the di grunted cop and the deliberately lower

There are thousands of unreported cases, outright denying any connection to the vaccine even though the connection is clear, the web is flooded with testimonies of people affected by the vaccine, people have personally told me they were affected by the vaccine, the Civil Investigation Commission is doing a much better job of you! If you really wanted to track and monitor cases you would need to create a system that would contact each person on your behalf after the vaccine and keep track of cases that sound unusual and will always reflect the data to the public. But instead there is one link to your tracking system that is not distributed and unfamiliar to most people and you "expect" your data to be reliable. As if the only thing that interests people who have been harmed by the vaccine and spend their time in tests and hospitals is to look for your poor link and report. Conduct like a joke. Leave no one believes you anymore and the only reason people still do the booster is your coercion and incitement. We have reached sad days for our country. God help

Myocarditis: If in the previous section you cheat and report 19 mild side effects when there are ?hundreds of thousands or more then how many here And suppose for a moment that only 22 children developed myocarditis (yes, you even divided that .(number between first and second dose to show that only 11 were affected These are 22 children who if they were infected with the corona then 99.999% of them ZA all would not feel it at all and at worst would experience it less flu. In general - according to your data, from the beginning of the corona - for 20 months only 94 children ,contracted Corona on the other hand, in an average period of 3 months, 22 children were vaccinated with myocarditis, ie, if they continued with the vaccines on average, 140 children would begin in a period of 20 .months So you're saying that millions of children should be vaccinated against a disease that would affect .less than 100 children across the country And what about long-term side effects? Arthritis that stopped me from the age of 4 reaches the age of 28 after a second vaccination returned twice as much !!! Endless bloating Weakness in the body Stabbing in the heart that feels occasionally and what a beauty that a month ago I contracted in the corona without even being close to people, ?interesting eh Just liars it's unbelievable you tell doctors not to report that everything is from the vaccine like you tried with myocarditis after my brother snatched it and sat at home for over half a year. First of all, your sweeping treatment of those who were vaccinated with 2 vaccines and not the third as vaccine refusers, is a scandal. According to criteria all over the world we are considered vaccinated (in Europe the vaccinated certificate is valid for 12 months). Instead of explaining and giving real information, you are attacking an entire public that cares about its health and is not willing to do something that is not currently approved by official bodies in the world

The information you provide regarding the FDA decision is incorrect and misleading. I bothered and listened to the 8 hours of deliberations of the committee that decided not to approve the booster for ages under 65. One of the reasons it was not approved is very simple - no controlled study was conducted according to the protocols to prove efficacy and safety. The data from Israel were presented as research data, although they do not meet the criteria of a study (such as a control group). No side effects studies have been presented and also have shown that efficacy is reduced only in the area of infection, but is still effective against severe morbidity and hospitalizations

Oh, and another important thing - the application for approval of the vaccine was initially submitted only for ages 16 and up, so why are you pushing to vaccinate a booster from the age of 12? You said you did not deviate from Pfizer's protocols, while Pfizer herself did not ask for permission to vaccinate Booster at the age of 12-16

I was vaccinated with 2 vaccines, so a vaccine opponent cannot be called me. The only reason I did not decide whether to get vaccinated with a booster is the lack of information and your transparency and reliability that deteriorates from day to day

Does public health justify: lies, incitement against people, recruitment of the public, all scientists and medical professionals, the courts for cooperation in reciting false statements and criminal incitement? Is the dismantling of a country's democratic foundation for our health justified? Weren't you educated that you always have to tell the truth and that lying has no legs? Where are the basic values that educated you as children and adults, what are the degrees and education worth? Is this how you educate your children? In one moment all the supervision and control of separation of powers disappeared, apparently it happened a long time ago and now it has been revealed, everyone will give the verdict, it is not possible that one person in the Ministry of Health includes silent GPs and includes all publicists Must be tried

?there is a God? no God

.Corona's truth is similar to this question

.An epidemic, like the divine idea, is elusive

.Some people live their lives in full identification with the deity, and some do not

In the eyes of the believer whoever does not see him may be miserable and even in some cases .dangerous

?Still, who is right? Who's poor? Who is dangerous

.(!!! So is the plague (not the disease

.And just like in the deep question - is there a God, we can not know

Whoever chooses to believe from "facts" must know that at the base of the belief must rely on "slavery" that no one can verify. The same is true of the plague. Just as Put put torn in two, so .maybe some Chinese ate a spoiled bat and drove the world crazy. But maybe not either

There is a saying - "When a plane crashes, all its passengers become religious ..." The

.army says that in the event of a collision, you turn to the first solution that comes to mind

The combination of fear and an immediate solution creates certainty and motivation for action, .which we desperately want to hang on to

For people on a plane crashing, God is probably the only advantage in the face of the loss of control and the known reasonable result. In a plague, as in religion, one must maintain the feeling,

the fear and the solution (the vaccine), on a daily basis ... In

order to maintain the fear (and the rating), the Corona clerics will stand as the last preachers A

.battle is coming

In order for the solution to become operative, they will present the immediately available solution, .the vaccine

... The tool - Inquisition / Jihad / War of Faith

be or cease. Kosher, secures its environment and affects it with kindness, while the unclean

.endangers it

.He who adheres to the narrative will live, and he who does not die at the risk of his dear relatives

:The examples are terrible

The narrative addresses the holy places in the Creator for each person, his personal security, his family, his society. The examples are sad: a

.grandfather who does not agree to see his children and grandchildren

.A workplace that is not willing to absorb its employees

?A kindergarten that is not ready to cable its children

Gradually the corona religious servants created more sanctions and restrictions that would make it difficult for the unclean and even question their judgment, define them as people who shoot

!!! variants and doors like from 16, and even undermine their loyalty to life and their slavery

If you are told the impulse cream has proven to be effective, note that it is not present and by and .large, check it out now. About you !!! The same goes for the first and second course

You will not be vaccinated - closures and mortality, economic collapse, torn families, elderly people .who will be expelled due to the risk, and more and more

All those believers and vaccinators are a server tool of an agenda that may or may not prove to be .true. We probably will not know, who is right

Just before you decide which agenda to serve, remember that convincing in a plague is like ... convincing that there is a God

!!! it is a personal belief. Forcing someone to align with a narrative is jihad / inquisition

Do not be so knowledgeable and wise, remember that all opinions have the preachers, graphs and presentations that support their agenda and as long as you are not scientists with deep specific

... knowledge on the subject and present yourself to know the truth, be skeptical

most importantly, before supporting sanctions, perhaps out of fear And a false belief, out of small thought and narrow-mindedness, you are also part of the experiment, and especially carriers and

!distributors of the real plague, which may even turn out to be not covid disease at all

A thought I thought at the only food stall that agreed to sell food to a person without a yellow badge .. Ah Suri - a green sign

On the other hand only from the people the testimonies in this post gave about then the heart wards. Department of Neurology. Gynecologists. Wards of the dead, etc. Had to be unusually busy. I would be happy if the Ministry of Health would provide data and comparisons of occupancy in the relevant departments. Between this quarter and a matching quarter in 2019 for example. And I will not wish to hate, I ordered Mada in the middle of a highway because I thought I was going to die from this vaccine, needless to say it took a week and a half for the severe side effects to pass and may link them to strange symptoms that have emerged over time since .. The doctor told me it was a total "anxiety attack" what happened To me a few minutes after the second .vaccination .. yes sure .A good friend fainted a few seconds later. I have a positive serological test from September and despite that I do not seem to get a green mark. I very much hope that you will take responsibility and change policies and take care to extend the green mark for exceptions. You cannot invest huge sums in advertisements to encourage vaccination and people who have been harmed by the vaccine will be denied a green card .without any medical reason I wish you would take stock and restore the trust of the people. This encourages immunization rather than ignoring and not resolving the victims. True it requires resources and time but we relied on you that the vaccine is safe and that the side effects are negligible so please help us now that we have fallen on the bad side of the statistics. Immunization is encouraged by taking responsibility and .transparency rather than opacity

Why publish information about mild phenomena when you know there is no connection between it and reality? Almost everyone I know has had mild symptoms including me and no one reports them. Opponents of the insane vaccines will not be persuaded under any circumstances, but at least you will maintain credibility with the general public. Focus on publishing data on serious side effects that must be reported and show that the risk of the disease is much greater than the risk of the vaccine as you did with myocarditis

This is not a conspiracy, this is a natural byproduct of processes under the capitalist religion that now dominates, the attempt of the rich and large corporations to keep their capital and not allow any competition or violent coup by the angry mob that sees most capital in few .To say it's a conspiracy is to bury your head in the sand in front of something trivial If I were on the board of directors of the big corporations, I too would be following a plan in this .style
The goal: "Exploitation of pig capitalism to maintain power and corporate control while maximizing "profit
:Strategy
Control the angry mob out of paranoia that otherwise, the angry mob will turn around and take" .over the centers of power
.The tactic: Appoint ambitious CEOs who will engage lobbyists to implement the attached program
This is not a conspiracy, but any basic scientific research from the social sphere will point to this progressive way of engineering the consciousness in order to maximize profit and continue to .control the centers of power

post Scriptum. This technology can be positive but first and foremost ethics, transparency, human .rights, regulation against over-pigs and creating competition in every field

Notice how the entire public has mobilized to make it easier for you to find side effects more widely, just need to open your ear and get the facts You look in every hole for symptoms after the corona and label it as a long cube and anyone who comes with side effects from the vaccine does not get any sympathetic ear and sometimes even disdain

Did you hear, for example, Miri Mesika's interview - what she says there and the response she gets: you sound like a denier .. that she tells about the problem that Hava said in the background "no no no" ... oh really

?How much denial have you created? How much do you think people are Patti You are losing the public trust even from the most loyal, those who were vaccinated while the vaccines were on the plane on the way here

The person is not at all the effectiveness of the vaccine, the person is the morbid coercion you have created and the need to vaccinate anything that has a pulse indiscriminately

Soaking so

Well, your post is really really really a foot shot. The third vaccine personally caused me terrible side effects that disabled me for two whole weeks and today, a month later, I still suffer from them. Wherever you go you will hear people who are suffering from side effects. I do not regret being vaccinated and I still * call on those who have not been vaccinated in the third to go and get vaccinated *. But there is nothing that silences me in the face of vaccine opponents other than this Soviet post - wherever you turn you come across people whose third vaccine has knocked them down and what you do is portrayed as ignoring and sweeping under the rug as if nowadays such an amount of complaints can be silenced. The only thing this post does is undermine the public's trust in the credibility of your reports and it will not take revenge on all of us in the very near future (for example - when we are called to vaccinate our children or get vaccinated a fourth time). It is not clear what you define as severe side effects - but I personally know a number of people who have suffered from side effects that they defined as severe and ,because of the holidays they were referred to the emergency room

Early signs - 20-fold increase in cancer in vaccinated

Dr Ryan tells of findings he already sees in the lab that are early signs, he says he sees a massive .increase in autoimmune diseases and various cancers in vaccinated patients

Since January 1 in the lab, I have seen 20 in endometrial cancer in relation to what I see on an annual basis. "He said," I do not exaggerate at all because I look at my numbers year after year. ".God, I've never seen so much endometrial cancer before

He explained that vaccines seem to cause serious autoimmune problems, in a way he defined as a "reverse HIV "response. Two types of cells are required for the immune system to function . "properly: , Also known as "CD4 cells" and "T-kill cells", also known as "CD8 cells

.And what do CD8 cells do? They keep all the other viruses under control." Added"

He sees an increase in viruses from the herpes family, herpes, shingles, kiss disease and a huge .increase in the human papillomavirus. It also reports invasive melanoma in younger patients

We are really weakening the immune system of these people"

I also have a question from the beginning of the epidemic plus or minus a medicine is on your desk. Israeli development. Simple that can be taken in inhalation Why do you not use it and stop scaring us ?with phenomena and death and what not

And another question if it is so safe and there is no hidden interest why all the violence around coercion? My body is in my own possession. I will choose what to put into it. In food with medicines in ointments etc. You have no right in the world to deny me freedom and force me to do as you please.

It's suspiciously puzzling and the coercion around this vaccine scares me more than dying from .corona

Oh and another question, as is well known, the Ministry of Health has more than once conducted experiments on infants, the jaundice experiment in question, patients with thyroid, anthrax in soldiers, and God knows what else you are hiding from the public. And you never took responsibility for the ?side effects, so I just came to ask, why do you think I should trust what you claim and publish

It is clear that our health is not important to you and you are acting solely on the basis of interests. Understand? The public is not stupid. Only from the reactions here can it be seen that the people are .waking up

Distribute to the whole world that they will know that there is treatment for Corona without hospitals *
* !!!!

* !Hello friends *

I want to tell a true story from our family. Our eldest daughter Moriah fell ill a second time in Corona. *
The first time it passed her quite easily while the second time she got it very hard * * She was literally
a broken vessel All day in bed Could not reach until the hower lay on the floor on the way to the
hower Good neighbor in Neve Tzof brought her all sort of thing that some people said was what
!* would help her But really nothing, Moria did not function

We were told that in Kibbutz Almog near the Dead Sea who grows all kinds of plants that appear in *
the Bible and he concocted from two plants - myrrh and frankincense a liquid that really works
wonders in those who suffer from corona - a video about him and what he does about corona rolled
* .(between all groups about a year ago (Whoever wants me to send him the video, I will gladly do so

I was not lazy I went to Kibbutz Almog I met the man, I bought 2 small jars for 50 NIS per jar (really *
.* funny price) and brought it to Moriah

.* You know me that I am too rational a person and do not believe in all kinds of magic and miracles *

But in front of my eyes there was a dramatic change thanks to the oil brewed by the dear man from *
.* Kibbutz Almog and Moriah in one day * !! * Back to life

I am sending this to you so that you can publish it as much as possible This will be my modest *
.* contribution

Here are the details of the miracle generator - his name: Guy Erlich. Cell phone number: 052- * 4498200

.You can not buy his products except at Kibbutz Almog *

,Brothers and sisters, those who do not want to get vaccinated
what is your alternative, really, that we are all infected and that's it? After all, there is no real cure, and
the corona is here to stay and it is real, the vaccine right now is what it is, is it just to give up the
vaccine and we are all infected with the corona, old, young and young? What will be will be? Some
will start easily, some will not feel, some will die, and some will be left with post-corona symptoms, but

the main thing is not to get vaccinated? Is the type of vaccine what prevents you from getting vaccinated? If it was a vaccine based on a killed or attenuated virus like any other vaccine would you get vaccinated because this type has a history? Is it something principled against vaccinating the body and letting the body cope on its own, even if it is measles or jaundice, earthworm or whooping cough? Or is it because Bibi closed the secret secret with Pfizer that we become an experimental face and it ,boils you down but if it was transparent you would be vaccinated I would be happy for a real explanation, without conspiracy

I read some of the comments and I keep wondering about all the angry commenters. You wanted a
change government, you got a change government. Nothing has changed? Ah .. it's because
Netanyahu was never a problem but a symptom. You replaced symptom with symptom but left the
problem. What problem are you asking? The problem is that you are too obscure and therefore
constantly choose corrupt and disconnected people. And so, not only Netanyahu (hereafter the
previous symptom) is like that. So if you were educated to elect honest elected officials, there would
be transparency in all matters of state administration. Not just transparency in the Ministry of Health.
Do you understand? You shout and complain separately about the Ministry of Health and then
separately about the police and then separately about the State Attorney's Office and then separately
.about the Ministry of Agriculture and the courts and basically about every public system

And it did not occur to you that all of these problems have only one root: elected officials that you are
.not interested in

.So keep choosing them

.We'll meet at your next shout

,your
The one whose ears are already sore from your screams. Move your ass. You will begin to be
exposed to information from several different channels of communication and at the same time, you
will learn who the elected public really are that you are going to vote for and whether they are even on
.the tip of the nail and uneven and corner circles. Do not vote for them

.It's simpler than that to throw letters at you. But you will not know what to do with them

כל פטירה שנגרמת מהחיסון גורמת לצער ואבל במשפחה שלמה,מכאן הפחד. אתם הייתם אמורים להודיע על מי אמור להזהר מהחיסון כמו שה FDA שלח רשימה של הגבלות. למה אתם מפחדים לפרסם?

Well done for publishing the findings and data you collect. Most of the commenters here have 'dressed up' for the post to advance the anti-vaccination agenda, and I have not found any real argument backed up by real data that contradicts what you are publishing

On the other hand, the sweeping distrust of the Ministry of Health that I see here in the responses is very, very disturbing, and also dangerous, so the whole Ministry of Health find a way to restore public trust in the health system

I personally know a lot of people who were hurt by the shot. Why is there no official place to report casualties? Why does someone go to a hospital with a severe side effect from the vaccine that doctors do not admit it could be from the vaccine. Why are you lying to the public and saying the shots are safe? You are criminals and liars

.The book A Wonderful New World talks about this subject and its conclusion Wow. Link below "The connection "drug sex and rock and roll (has been scientifically proven (also prayer - musical ecstasy It's not just that that's been said since the 1960s. All of them have the same area of stimulation and .reward in the brain Nowadays it is possible to influence the area using TMS technology (activation of magnetic pulses by (coils that stimulate or suppress the area Sex and drugs produce physiological-bio-stimulationDefinitely geochemical, but music? This is just a certain compression of the air around us .. The .evolutionary explanation is divided into 3 reasons which are all probably true Reward-related music as a result allows for unique courtship, it also allows for high cognitive expression, i.e. language of expression beyond the ordinary and thirdly, music allows to create a .collaboration that evolutionarily helps to survive beyond the ordinary

So maybe it's still worth trying to run
 Shine on your crazy diamond
 with huge speakers so that the whole country will hear or for a change vaccinate everyone with a
 vaccine that will contain mRNA for proteins that will stimulate the same area in the brain and allow a
 little more reward for peace than war
 :What has already written a book about it in the 20
 'Brave New World'
 'A brave new world'

In this book everyone was given drugs on a daily basis, the kind that made them feel good, the
 protagonist of the book committed suicide because he happened to come from a remote place and did
 not consume these drugs while looking at everyone from the side and knowing where he came from
 he concluded Haim. Without the existence of a spectrum of emotions at least somewhat as if there is
 no life. There is nothing to compare and nothing to be surprised about
 PS Drugs take this reward system captive, meaning a drug that is stimulating and rewarded a
 thousand times over from an exciting song

Who will tell me how to stop the tears? Who will comfort? Who will help? so what are we doing ? Listen to the advice of the snake fish in "Song of Consolation" the saddest song there is, because .there is no solution to it https://youtu.be/d1uvv83Z_FY

My taxes buy weapons"
and I see through it
my children squeeze the trigger
and I am very proud of
my walls a crack opens
just so I do not fall through it
maybe my house needs a check
and maybe you

can not actually sit all day
and grind and grind it
sit all night
and chew and sip it
but why me dive
and glum it
is preferable that
there is no solution other

then what do we do take comfort
Mtfnnim about Hamin

fanning charcoal grill
fly the Arc reindeer
and ministers have a good
singing so as not to starve
ministers not to see there was nothing to
sing another song comfort

rotate shekels
they fed falsehoods ,
And I when innocent
still believe
once again
a song of consolation

my representatives have grown a trunk
again gives them a voice
my children do damage
hope not big
floor under my legs shaking
careful not to fall
maybe my house should be checked
and to me actually

can not sit all day
to turn and examine it
turn over All night
do not sleep do not sleep from it and
one movie to eat
but there is no logic in it
more is better not
because there is no solution to it

so what do comforters
remove covers remove
removers remove soak
remove sobs from songs
and sing it will be good
to sing so as not to starve singers
so as not to see what they
" sing about Another song of comfort

My sob in the penniless shekels in lies
and I when innocent
still believe
once more

And I'm reading this post again and find it hard to believe - you really should fix it / qualify it as soon as possible because this post is a confirmation of the killing of citizens' trust in the health care system. The best way to get people not to get vaccinated is to convince them that those responsible are lying to them. At the very least - clarify what you mean by "significant phenomena", because every average person knows a significant number of people who report serious .phenomena

We are a country that has vaccinated 80 percent of its population at record speed, and yet the reports of myocarditis as a relatively common side effect came from an information analyst at Oracle who aggregated information into the US side effect database and came across it by chance

Health experts from the United States say again and again that although it was expecting to receive from Israel information about the vaccine, there was no information on side effects

Most serious, the admission side effects warmth occurred just after the US data came out, those who have waited

You do not, "Ministry of Health", I do not know what you are doing there, but our health is the last thing that interests you

No trust. There must always be a second opinion, let people understand the implications of the !! medical treatment offered to them, and let them choose
Once medical care is a condition of freedom - it is no longer legitimate for me. I myself know full of people with side effects and also get rid of who have registered that they died from corona and that .is just not true. So let's talk about it - start telling the truth, and then there will be a dialogue

You are misleading the public when you claim that there are few side effects. When the injecting nurse asked me if I had any side effects following previous vaccinations, I answered yes and detailed. She did not record anything. I asked her why she does not prescribe, because then the Ministry of Health claims that there are no side effects after the vaccine, she replied that nothing should be prescribed and informed me that after the vaccine, instead of waiting outside for a quarter of an hour, I would sit for half an hour

Sorry Ministry of Health, someone with you has not done and / is doing homework. In my case, for example, the first vaccine passed easily, mild hand pain and that's it. The second vaccine was less pleasant, hand pain, some headaches, nausea and muscle aches, fatigue, 38.5 fever, and most importantly massive fatigue, after 48 hour it was all over In the third vaccine, I had severe hand pain, I hardly slept that night because of the pain And again some headache , nausea and muscle ache , fatigue, 38.3 fever, and most importantly massive fatigue After 72 hour it was all over And I'm not the only one There are those who have reported much more severe symptom !! Already open the agreement with Pfizer that we know the public' right to know

A friend of mine from work was among the first to get vaccinated (January this year), two days after the second dose he stopped coming to work and did not answer on his cell phone. I turned to the family because this is a very hardworking guy who never misses a day at work and unfortunately the family said he had a stroke, arrived with him in time to the hospital so as not to die, but not to be what he was before, he is still learning to talk, walk etc. Year and still .has not returned to himself or to work

.Another friend of mine died of hemorrhage 8 hours after the second dose died

Aside from the terrible pain of these cases, I am very sad that my other friends are blind and .do not link these cases to the vaccine

The Ministry of Health

does not have 2 vaccinated and non-vaccinated countries here. There is no separation as they !! chose to do in the news we are one

There is no political interest here of right and left there is a whole people who want each other's !! health because it is a supreme value

We all deserve to live our lives, to work, to go outA. For places of entertainment without the .""coercive character

!There is an epidemic, so return the capsules Children need to go to school for this to return the capsules. The Minister of Health acknowledged .that the purpose of "coercion" was to encourage immunization

At all costs? Everything is open, there is no reduction in gatherings, so what good will the character do ?? This is what a doctor claimed in an interview so who should I trust? Who is telling ?the truth

? / <https://www.facebook.com/100045981560824/posts/418961542979894>

!! I got vaccinated twice and you'm done with the movie more vaccines will all wake up 1-2

I wish every person from Israel health ❤️ And that he does not get infected with the virus and does not suffer from poison injections. Better a poor horse than no horse at all. I stubbornly lost faith in !you

You are liars. We know this and you know we know. Everything plays for you, plays in human life, really gladiator A taste in the guise of a compassionate taste of grouping elite for the Jewish people Now from all the evil, pain and suffering caused by you and the hands of those who control you, you who sold us, we know the bitter truth Addicted to the golden calf, evil incarnate I prefer to believe in the devil and not all of you, flesh and blood, who will rot like everyone else in the earth, but your soul will be roasted in the fire of hell And now, I call you the people of power have topped !!!! There is not and will not be in you even a gram of truth to the world, and the truth will come and be revealed even if we pay and pay expensive price, we are on the right side of history !!! and stay here

This post and the reactions to it definitely make me apprehensive about the vaccine. So far I have been against just because of coercion

of those who have been vaccinated second vaccine have not yet been vaccinated on 800,000 (Tuesday (although they are eligible

about 10% of the general diet (higher percentage came out if we take them out of 2 vaccinated vaccines) I guess most did not want to be vaccinated because of side effects. Again, 10% in general

Shay Dawidowicz
 When a doctor reports damage from the products ("side effects"), not only does the Ministry of Health ignore and bury the information but it sees it as a declaration of war and marks the doctor as an enemy to smash including the revocation of the medical license. In such a situation how many doctors will report? Will declare war on the Ministry of Health, their bosses? And how many of the reports will reach the public ...? And if a doctor who reports side effects denies him the license, it can be argued that there are no reports from doctors because the person who reported ... is no longer a doctor .it is like that in many countries now

Liars up front! You have caused the deaths of tens of thousands of innocent civilians in Israel, you have caused thousands of young people and children to contract myocarditis and thousands of mothers have abortions! What safety are you talking about? You distort data and go through every day that the forced trial continues with countless criminal offenses and you will be !prosecuted

!! Demagogy in the shekel First of all, recognize the side effects (as side effects of the vaccines), report them and then show us the data !!

!! Since you do not link the side effects to vaccines you will probably get a "zero rate" as you claim In the meantime, it is impossible to trust the data you publish - do your homework, adjust the settings properly and get back to us with more accurate data 😊

The 3.10.21

! big strike, cancel the green mark
!Show the Knesset and the judges that they have betrayed the people

:Axis blockage
will be performed in the
.first 2 beats at 7:00 a.m. to 10:00 p.m
.The second from 15:00 to 18:00

The blockage will be carried out using several vehicles (depending on the number of axles) traveling in parallel on all the axes. As a gesture of goodwill to our green brethren, you can 😊 occasionally release the left axle, for green vehicles only after presenting an ID card

In order for the blockage to be effective, about 3 to 5 vehicles must be organized at each end, before exiting the road
.The ride will be according to the minimum speed limit on the road, pay attention to the blue signs

If a police car wants to clear the lane, obey its instructions, get off at the nearest exit off the road, continue driving slowly, and then return at the next interchange

You should exchange mobiles and download a ptt app for continuous communication and updates between the caravan members during the trip

It is recommended to affix to the vehicles signage condemning the green mark and forcing experiments on humans without informed consent

Distribution of the axes for blocking by cities
.Please be sure to focus on the axis assigned to you, in order for the blockage to be effective

"There is a sub-report"

As usual, blame the vaccinated for not reporting

If the "research" on side effects is so important and significant, why is there no follow-up system for each vaccinated person for several days from the day the vaccine is given

In fact, do not tell me ... "Lack of manpower"

It is no longer a crisis of confidence, it is a disgrace that is second to none in size

".There is a sub-report"

.As usual, blame the vaccinated for not reporting
 If the "research" on side effects is so important and significant, why is there no follow-up system for
 ?each vaccinated person for several days from the day the vaccine is given

".In fact, do not tell me ... "Lack of manpower

.It is no longer a crisis of confidence, it is a disgrace that is second to none in size

It is worthwhile and desirable that anyone who has experienced such and such side effects will .. mention it here in the post. Then .. we will cross-check and check the data you distribute there is a crushing committee for Corona and there are many other bodies that collect, investigate and jump these cases and it is not you. For them the vaccine is the perfect and exclusive solution to deal with the corona. I am not ready to hear the opinions of experts and professors other than Elroi-Ash-Barbash-Rahav and the other friends who come out very rewarded by having a vaccine .and another vaccine and another vaccine. . The 3.10.21

! big strike, cancel the green mark
! Show the Knesset and the judges that they have betrayed the people

:Axis blockage
will be performed in the
.first 2 beats at 7:00 a.m. to 10:00 p.m
.The second from 15:00 to 18:00

The blockage will be carried out using several vehicles (depending on the number of axles) traveling in parallel on all the axes. As a gesture of goodwill to our green brethren, you can 😊 occasionally release the left axle, for green vehicles only after presenting an ID card

In order for the blockage to be effective, about 3 to 5 vehicles must be organized at each end, before exiting the road
.The ride will be according to the minimum speed limit on the road, pay attention to the blue signs

If a police car wants to clear the lane, obey its instructions, get off at the nearest exit off the road, continue driving slowly, and then return at the next interchange

You should exchange mobiles and download a ptt app for continuous communication and updates between the caravan members during the trip

It is recommended to affix to the vehicles signage condemning the green mark and forcing experiments on humans without informed consent

Distribution of the axes for blocking by cities
.Please be sure to focus on the axis assigned to you, in order for the blockage to be effective

- .Residents of Nahariya and Acre, Road 4 south to Acre and back
- .Residents of Karmiel Road 85 in both directions

The Ministry of Health does not have 2 vaccinated and non-vaccinated countries here. There is no separation as they !! chose to do in the news we are one

There is no political interest here of right and left there is a whole people who want each other's !! health because it is a supreme value

We all deserve to live our lives, to work, to go out. For places of entertainment without the ""coercive character

!There is an epidemic, so return the capsules Children need to go to school for this to return the capsules. The Minister of Health acknowledged .that the purpose of "coercion" was to encourage immunization

At all costs? Everything is open, there is no reduction in gatherings, so what good will the character do ?? This is what a doctor claimed in an interview so who should I trust? Who is telling ?the truth

? / <https://www.facebook.com/100045981560824/posts/418961542979894>

!! I got vaccinated twice and you're done with the movie more vaccines will all wake up 1-2

I wish every person from Israel health ❤️ And that he does not get infected with the virus and does not suffer from poison injections. Better a poor horse than no horse at all. I stubbornly lost faith in !you

Yes Yes

Liars !!!! Some ignorance and lack of intelligence in one post, every day come with "new" numbers "and a" new professor who stutters himself to know and flips like a doubt until he is followed by "we still don't know and we are still checking". What the hell do you know !!!!. Nothing of course, that it means "experiment" to be first without you prior to knowing the consequences !!! So they will not !!!! stop stuttering you with numbers.  The Ministry of Health does not have 2 vaccinated and non-vaccinated countries here. There is no separation as they !! chose to do in the news we are one
 There is no political interest here of right and left there is a whole people who want each other's !! health because it is a supreme value
 We all deserve to live our lives, to work, to go out. For places of entertainment without the .""coercive character
 !There is an epidemic, so return the capsules
 Children need to go to school for this to return the capsules. The Minister of Health acknowledged .that the purpose of "coercion" was to encourage immunization
 At all costs? Everything is open, there is no reduction in gatherings, so what good will the character do ?? This is what a doctor claimed in an interview so who should I trust? Who is telling ?the truth
 ? / <https://www.facebook.com/100045981560824/posts/418961542979894>
 !! I got vaccinated twice and you're done with the movie
 more vaccines will all wake up 1-2
 I wish every person from Israel health ❤️ And that he does not get infected with the virus and does not suffer from poison injections. Better a poor horse than no horse at all. I stubbornly lost faith in !you

I was vaccinated in 2 doses. The third dish I am very much undecided whether to do. The first vaccine went relatively well, only local pain for 24 hours. The second vaccine knocked me out for .two days - fever, weakness, hand pain but really hard
Someone who went through 2 vaccines and did a third vaccine with more severe side effects than ?the second vaccine
".And not stories of "I heard" or "I was told
.I would love insights

How do you know if the side effect was mild / severe / cavity or still exists ???? I reported shingles, no one checked with me what my condition and severity and how long it lasted and if it passed... I believe in vaccines but I have no doubt they are not free of side effects and you are just hiding information! The public does not believe you because of this lack of transparency. I'm not talking about vaccine opponents but about people who have been vaccinated and still have .no faith in what you are advertising

 If no disease, irreversible damage and death are related to the vaccine, necessarily none of these were related to the corona, so there is not and was not an epidemic and in fact you lied to us from .the first second. But this is not surprising at all

Liars, 19 people, at least do not lie to people, if the Ministry of Health lies to the people what is left? I'm in my neighborhood in my city alone there are more than 50 people I know who suffered from terrible symptoms, my neighbor lost consciousness was injured in a fall and was hospitalized, the barber in the neighborhood did the vaccination and straight to the hospital ambulance, 45 year old guy lay in bed for two weeks like a rag, 28 year old , And other cases of various kinds, so it is only in one city and many more who do not know, what about the other cities in the country? How many were not reported? Do not know about the effectiveness of the vaccine yes works no works does not get into it, what since I know there are serious side effects and it is to take a chance that I may be one of them, no one really knows anything and no one has answers so if you do not know at least do not lie to people

 ?I did not understand why a vaccine is tested for up to 30 days
 ?What if the side effect lasts for months since the vaccine
 Ahhh it does not work for you with biology so just say it has nothing to do with the vaccine and that's it, I got it

 !! will believe the data when it is really presented, documents
 !Everything is a lie
 I am vaccinated twice and do not imagine getting vaccinated on Tuesday
 I personally know at least 7 with blood clot, myocarditis, severe eye disease (who had nothing before me)
 Hala with the
 !vaccine lie finished you off
 I can testify to myself, I had nothing and after the vaccination I had tumor in the uterus! Bleeding, menopause is a phenomenon I hear about every day
 ,I do not believe in anything anymore
 I believed in the first, in the second ... and I finished Be your guinea pig. Thank you

 Just so you know that after the third vaccination I passed away, the funeral was really exciting, Aunt Regina was smooth for everyone from Amulim, and Uncle Murdoch the son of a dog who owed me money stood aside with a smile because now he would not have to give back.

 Liars, 19 people, at least do not lie to people, if the Ministry of Health lies to the people what is left? I'm in my neighborhood in my city alone there are more than 50 people I know who suffered from terrible symptoms, my neighbor lost consciousness was injured in a fall and was hospitalized, the barber in the neighborhood did the vaccination and straight to the hospital ambulance, 45 year old guy lay in bed for two weeks like a rag, 28 year old , And other cases of various kinds, so it is only in one city and many more who do not know, what about the other cities in the country? How many were not reported? Do not know about the effectiveness of the vaccine yes works no works does not get into it, what since I know there are serious side effects and it is to take a chance that I may be one of them, no one really know anything and no one has an answer if you do not know at least do not lie to people

blood urination
swelling lymph nodes
abortion
fall while walking
hair loss
fast pulse, pressure and stabbing in the chest
spasms in the legs to difficulty walking
stroke

.and last had blood clots Health and passed away

.Whether or not there is a connection to vaccines, God knows

,After all if even vaccinated are contagious and sticky, then why the green mark? It just creates an illusion of security

And if the vaccine does not create a herd vaccine, then perhaps it is better to understand that we need to get used to living with it? As in England and other countries that have waived restrictions

יש המון תופעות לוואי כמו : סחרחורת, כאבי בטן, חולשה, כאבי שרירים, דמומי מחזור שלא בזמן, התנפחות בלוטות הלימפה, עייפות ועוד. השאלה היא האם עדיפים תופעות הלוואי על פני ההדבקות בקורונה חריפה וקשה? האם החיסון באמת מציל? או שיש התחסנות עדרית? את זה ימים יגידו.

There are lots of side effects like: dizziness, abdominal pain, weakness, muscle aches, premature menstrual bleeding, swelling of the lymph nodes, fatigue and more. The question is whether side effects are preferable to acute and severe corona infections? Does the vaccine really save? Or is there herd immunization

There is no one to trust more in this country unfortunately. And if you are the Ministry of Health deny the truth and the side effects that exist after the vaccine that unfortunately do not pass. Who will give us life back before the vaccines. You deny everything that has been said about the side effects, there is no transparency at all. Doctors ignore patients' complaints after the vaccine. It's just a crime what !!!! you do Criminal negligence

I do not know where you live but I have heard that there is another world where people do not die from
smoking at all let alone passive smoking. They also do not suffer from air pollution, ionizing radiation,
soot from trucks, excessive drinking of alcohol and sugar that are pushed into every product like
schnitzel. In this world there are no side effects to any drug. Everything is safe there in the same world
and that is why it is not allowed to vaccinate there against the corona because it is a world that has no
dangers and no dead and everyone is healthy because they drink vitamin D and smell turmeric and
.live according to Maimonides and do yoga

I read the reactions that people write from the bottom of their hearts, strange to me that the Ministry of Health does not turn to them and respond, I recover with antibodies probably did not get vaccinated .after what I read here

I do not know where you live but I have heard that there is another world where people do not die from smoking at all let alone passive smoking. They also do not suffer from air pollution, ionizing radiation, soot from trucks, excessive drinking of alcohol and sugar that are pushed into every product like schnitzel. In this world there are no side effects to any drug. Everything is safe there in the same world and that is why it is not allowed to vaccinate there against the corona because it is a world that has no dangers and no dead and everyone is healthy because they drink vitamin D and smell turmeric and .live according to Maimonides and do yoga

On the face of it, the chance of dying from corona is 0.0001% and the chance of teenagers (you did not mention adults) according to you is 0.00043% to develop myocarditis (myocarditis) after the vaccine, and if not die then become heart patients. That means the vaccine is 4 times more dangerous than the corona !!! And you market it as ????? safe

It's crazy this satanic daring to call this vaccine a "vaccine", let's start with the fact that it is
.neither a storehouse nor a shield, but the complete opposite
And then one can focus on the damages and injuries and the multiple deaths that this
!"vaccine" has caused them
Just one small example - my cousin the day after the "vaccine" had a heart attack, a healthy
... 46-year-old guy, without any background illness or cardiological problem whatsoever
and of course there are many more "symptoms" experienced and experienced by people
.close to me
You are criminals and murderers and you will pay the sentence with the help of the name
very soon

 Everyone around us is hurt by your toxic shots. It is impossible to lie in the face of the reality we see with our own eyes. Only in my family there are two with a heart attack after the injection. What is the probability that two people from the same family will have a heart attack in a short period of time? And "by chance" they both did the same thing: injected? And if that's not enough, according to MDA data, since you started poisoning the public with your injections, the number of heart attacks has risen by about 83%.
 .Stop lying and poisoning the public to death

Vaccines are as effective and safe as the form of treatment for ringworm that was common in the .1950s
 They are as sure as the sterilizing injections "Depo Provera" (also of Pfizer of course) that "won" .to receive some of the women of the Ethiopian community
 Vaccines are as safe as the experimental and defective Sibivac vaccine given to 4228,000 .newborns and left some with irreversible vulnerabilities
 They are as safe as the thalidomide given to pregnant women and left their children with limb .deformities and chronic injuries for life
 They are as safe as the DDT that parents would spray and put into the food of their poor children .just because they lied to them that it was safe
 This is not the first time that the establishment entrusted with "preserving" public health is lying to .it, misleading it, experimenting with it and abusing it frequently

Once you have started murdering people here while lying and claiming that you are maintaining .their health the price that each and every one of you will have to pay will be unbearable
 You may not be punished in this world, but rest assured that in the next world you will have no .atonement, forgiveness or rest
 And for anyone who still believes in the Ministry of Health and the lies it sells to you, I recommend that you wake up quickly. The place of the state and over the years terrible crimes against man .have been committed here again and again, all under the auspices of the establishment
 No one cares about your health, it has never interested anyone. And this time is no different from .other times where corrupt and messy officials have deceived innocent people

How are you able to stand there and lie with a determined forehead? Where did you grow up? When did you start praying to the God of power money and honor. The truth comes out. There is no family without casualties. Physically or mentally as a result of the outburst against the 'vaccine opponents', which is also a name that is a lie. It is God who created us. Breathe. simple. This disease was created for the vaccine and not the other way around. The purpose of the vaccine is .to dilute the population. You will all be judged

How are you able to stand there and lie with a determined forehead? Where did you grow up? When did you start praying to the God of power money and honor. The truth comes out. There is no family without casualties. Physically or mentally as a result of the outburst against the 'vaccine opponents', which is also a name that is a lie. It is God who created us. Breathe. simple. This disease was created for the vaccine and not the other way around. The purpose of the vaccine is .to dilute the population. You will all be judged
